## WELCOME TO NEW COAST MANAGER

The Daily News wishes to convey to Colonel J. C. Brown, the newly appointed Pacific Coast manager of the Canadian National Steamships, the welcome of the community and the hope that he will be the means of increasing our business in Prince Rupert and making us more prosper- Twenty Members ous. We need the cooperation of all officials, especially in | extending shipping facilities to the scattered sections of Local Reserve Have the country.

### SPOKE TOO SOON

We spoke too soon when we congratulated the C. N. R. on the opening of a new office in this city for the land settlement department of the railway. Now we have to re- Naval Volunteer Reserve to fulfil cord the elimination of another office which makes up for their training so far this year, P. this one gain. The district passenger agent is a thing of Peterson, A. Cross, H. Bond and C. the past, so far as this city is concerned.

Mr. McNaughton has been an active and courteous official and his departure will be regretted. Happily the 'n two weeks' time. men who remain as heads of the various departments in this city are also capable and courteous officials and will represent the railway well.

## SELLING IS DIFFICULT

In this period of business depression salesmanship is becoming much more of a fine art than formerly. All business ernoon for Vancouver via Ocean men are finding this to be true. It is easy enough to make credit sales to some people but to make cash sales or credit sales to people who are sure to pay is a different matter.

There was a time when in Prince Rupert, business people made little effort to please customers. They adopted the "take-it-or-leave-it" method of doing business with the result that many people left it and sent out of town to fill their needs.

It was during a period of business depression that El-

bert Hubbard, the famous author, wrote:

"The typical buyer is a man past middle life, spare, wrinkled, intelligent, cold, passive, non-committal; with eyes like a codfish, polite in contact, but at the same time unresponsive, cool, calm and as damnably composed as a concrete post or a plaster-of-paris cast; a human petrification with a heart of feldspar and without charm or the friendly germ, minus bowels, passions, or a sense of humor. Happily they never reproduce, and all of them finally go to hell."

(By Gee)

## Dr. J. H. Grisdale

DR. J. H. GRISDALE, B.Agr, D.Sc.A., Deputy Minister of Agriculture for Canada, is chairman of the Conference and Programme Committee of the World's Grain Exhibition and Conference and in this capacity is charged with one of the most important phases of the 1932 world-wide event.

Born at St. Marthe, Quebec, in 1870, the son of farming parents, Dr. Grisdale entered the Ontario Agricultural College at Guelph in 1896, and was an under-graduate student until 1907. He completed his studies at the Iowa State College and graduated in 1898 as a Bachelor of Agriculture.

Returning to Canada in 1899, Dr. Grisdale was given charge of the important position of agriculturalist at the Central Experiment Farm at Ottawa. In 1911 he became director of the Dominion Experimental Farms.

Practical knowledge of farming, technical training and a keenly analytical mind are the qualifications that make Dr. Grisdale the logical head of the Federal department experimental farm branch, the largest system in the world devoted to agricultural practice, investigations and research. While director Dr. Grisdale was called upon to act as Dominion field husbandman from 1911 to 1919 and Dominion botanist from 1917 to 1919.

In 1919, when the position of Deputy Minister of Agriculture for Canada became vacant, Dr. Grisdale was appointed and he has held this position since that time, as well as having been acting commissioner of agriculture.

Dr. Grisdale acted as advisor to the Canadian Government in London, England, in 1922, conferring with the British Ministry of Agriculture regarding regulations incidental to the lifting of the cattle embargo, also as agricultural advisor to the Canadian delegation at the 1923 and 1926 Imperial Conference in England. In 1927 Dr. Grisdale headed the Canadian delegation to the Imperial Research Conference in London. and in 1929 represented the Canadian Government on the Imprial Agricultural Bureaux Research Council. He is a member of the Canadian Research Council and joint chairman of the council's committee on tuberculosis, as well as of a committee appointed to study the important question of cereal rust. Dr. Grisdale is a Fellow of the American Association for the Advancement of Science, of the American Genetic Association and of the Canadian Society of Technical Agriculturalists.

## Young Publisher

Walter P. Chrysler jr., New York, recently became America's youngest published, being only 21 and still a student, and is now completing his second book of series which he is publishing.

# ... IT BRINGS KELLOGG'S CORN FLAKES OVEN-FRESH TO YOUR TABLE!

NO WONDER Kellogg's Corn Flakes are preferred by the majority of housewives. They are different in flavor, quality and freshness! Kellogg's Corn Flakes always reach you in perfeet condition. This is because of the patented Kellogg's Waxtite Bag.

This special bag also enables you to keep the flakes fresh and crisp even after you open the package.

Other foods are wax-paper wrapped. Some on the outside. Others have an inside wrapper. But only Kellogg's Cereals have a sealed waxtite inner bag. Sealed against odors, moisture and contamination!

Kellogg's Corn Flakes are one of the most economical and convenient of foods. From a single package costing only a few cents -

many treats for breakfasts, lunches, children's suppers, late snacks.

Ready to serve with milk or cream. No trouble to prepare. With a "wonder" flavor that can't be copied. For many reasons, it pays to get genuine Kellogg's in the red-and-green package. Sold by all grocers. Made by Kellogg in London, Ontario.
