

THE reason that Fire Insurance Companies insure your property so cheaply is because they have a great number of properties insured in a great many localities in many different cities. Thus their risks are subject to the law of averages. The individual who carries his own risk (in other words does not have his property insured) cannot possibly so diversify and scatter his risks as to bring the law of averages to apply to his property. Therefore the insurance companies can carry your risk cheaper than you can. **H. G. HELGERSON, LTD.**, are writing insurance carefully and in thoroughly reputable companies. Phone 96 and we will be glad to quote you the rate on your risk.

The Gift Appreciated Later
by
That Little Boy or Girl of Yours.

Your laughing little boy or girl in a few years will be a serious man or woman. A very small sacrifice will help greatly to make the pathway more smooth that they must tread. If, for example, you are 40 years of age your child 10 years, a saving of less than \$1.00 per working day would give the child an income of \$40.00 per month for life even were you to leave tomorrow. Larger or smaller sums in proportion.

We can issue Policies on the Endowment Plan between the ages one and fifteen years. Why not one of these as a Christmas gift for your boy or girl. Success or failure—*anxiety or happiness*—so much in years to come may depend upon the possession of even a comparatively small income.

Let us explain more fully the "Childs' Endowment and Income Policies" to you.
