United States' Soldiers' Bonus Bill Is Passed Over Head of President Hoover

WASHINGTON, D.C., March 2—As the House had done the day previous, the Senate completed the overriding of President Hoover's veto of the soldiers' bonus bill by substantial margin over the vote required to carry.

President Hoover took his anticipated defeat gracefully and announced that machinery was already in motion to administer the bonuses which will, it is estimated, cost the government anywhere from \$525,000,000 to \$1,000,000,000.

Soldiers' organizations throughout the country are making arrangements to enter bonus claim for their members.

## an Open letter to McLaughlin-Buick owners

GENERAL MOTORS PRODUCTS OF CANADA LIMITED

Dear McLaughlin-Buick Owner—

Because of the importance of the new car to you, we decided to inform you now that the present line of 1931 McLaughlin-Buick Straight Eight will not be replaced by new models this summer.

McLaughlin-Buick as you know, has introduced the new cars on August 1st, year after year. But because of the importance of the Straight Eight model to you, we have decided to continue manufacturing the present Eight throughout the summer and fall.

This is good news to thousands of McLaughlin-Buick owners because they will not have to change their cars until the new models are introduced in the fall.

They will find in these new McLaughlin-Buick cars a degree of performance that is certain to give them a genuine thrill. The new 1931 Straight Eight has a new 100-horsepower engine, a new 100-horsepower transmission, and all have the famous Buick Straight Eight performance.

So well has the 1931 line been received that out of every 100 new cars sold in McLaughlin-Buick's price class 56 are Buick Straight Eights.

May we suggest that you drive the Eight by McLaughlin-Buick for your McLaughlin-Buick dealer will be very glad to have you take the wheel and learn at first hand how very much McLaughlin-Buick Straight Eight performance adds to the joy of motoring.

Yours very truly

## Bring the Boys and Girls Back Home!

How often have we all deplored the fact that thousands upon thousands of our most promising young men and women find it necessary to leave Canada, in order to seek in some other country opportunities for the employment of their talents that seem to be lacking here?

As individuals we have deplored it, because in these cases the sorrow that is caused us through the breaking of family circles and home ties is accentuated by a sense of irrevocable loss, due to a feeling that the separation is going to be permanent. And from a broad national standpoint we have deplored it, because it has meant a serious drain upon the very kind of population—gifted, energetic, ambitious—that we most need to help in developing our magnificent natural resources.

Must we continue to rear and educate our children—to equip them as best we can for the successful careers we hope will be theirs—only to lose them to an alien flag because of the dearth of opportunity for them at home?

Opportunity of any kind is a result, of which production of some kind is always the cause. Most people create their opportunity by engaging directly in some form of production, such as farming, fishing, mining, lumbering or manufacturing. These people provide the foundation and, according as they succeed, opportunity is created for others in all the occupations that constitute the super-structure, such as transportation, banking, insurance, trading, the professions and public service.

The more the people of a country favor their own producers, thus giving the latter all the incentive necessary to increase the volume and broaden the scope of their production, the more abundant will be the immediate opportunities they create for themselves, and the future opportunities they create for their children.

If in the past opportunity has not been as abundant in Canada as it has been elsewhere, it is because Canadian producers as a class have not been as successful as producers elsewhere have been. And the chief reason our producers have been less successful is because they have failed to receive from Canadian citizens generally the same loyal support that the producers in certain other countries have received from their citizens.

Some of these countries import practically nothing that they are capable of producing for themselves. But we Canadians are so careless about our daily buying, so thoughtless of the welfare of our producers, so shortsighted about keeping the door of opportunity open for our sons and daughters, that every working day we allow ourselves to be sold about \$2,500,000 worth of imported merchandise that our own producers would have been glad to make for us, if we had only given them the chance!

Why not let us all resolve that from now on we'll try to bring our boys and girls back home by remembering, in our buying, that it must always be "Canada First"!

Very sincerely yours,

*A. A. Stevens*
