BRITISH ELECTIONS.

-The long expected and much talked of British elections are at last officially announced and the lineup is an interesting one. Looking at it here from Canada it seems to us as if MacDonald and his national government with a national policy of protection will win the day.

We have prophesied before that protection would likely win out in Britain whenever the issue is presented, but the lineup is decidedly different from what was expected. While the despatches do not say so, it seems altogether probable that a large section of labor will vote for pro- portance of this achievement cantection for British industries in view of the terrible slump not be overemphasized, Rabbi Zlot- with the ransacking of B. FATE OF POLITICAL PARTY.

A political party is useful only as long as it can serve the country. In itself it is nothing. While it stands for some definite principle and can command the support of MORMON a considerable section of the community it s a power. a considerable section of the community it s a power.

When a political party exists only for the spoils of war or only because of the influence of its leaders it is doomed to self-destruction. It has to stand for something definite and that something must be in line with the tendency of Church Is seeking More Converts the time or it cannot succeed.
