The Daily News has received many compliments on its caroline Mitchell, Miss K. McKay. sport page of late. This is a feature that is much appreciated by the younger men of the community.

FLOWER EXHIBIT

The Fair Board has increased the prize list for flowers in order to try to increase the interest in the local exhibits. This is in line with the move made last year for the first time to make flowers one of the big features of the exhi- city on the Princess Norah yester- noted that one of the easiest methbition. By doing that, the movement to beautify the city is being advanced and more local people who will attend the fair are interested in it.

That the action of the board was appreciated last year was indicated by the increased attendance in the building.

KEEP MONEY AT HOME

There is a movement afoot to induce no outsiders to come to Prince Rupert to fleece the people at fair time but to ing to arrangements now being dle West." get local organizations to carry on the sideshows, the proceeds to go partly to the funds of the board and partly to be used by the other organizations for their public service Rupert East. work.

Here again is a good move. People like to be skinned but if they are skinned they should be given the satisfaction of knowing that the skinners are local people and that the money goes to improve the city.

Her Two Children Coughed Day And Night

Mrs. Fred. T. Kilnappel, R.R. No. 1, St. Agatha, Ont., writes:- 'My two children were coughing, day and night, from a very severe, whoopy cough. tried every kind of medicine I could think of, but they got no relief. A friend told me I should try Dr. Wood's Norway Pine Syrup, so I got two bottles of it, and before they were used the children were rid of their coughs. It is a very good medicine, and I would not be without a bottle in the house."

FORD SMOOTHNESS

The new Ford has more than twenty ball and roller bearings

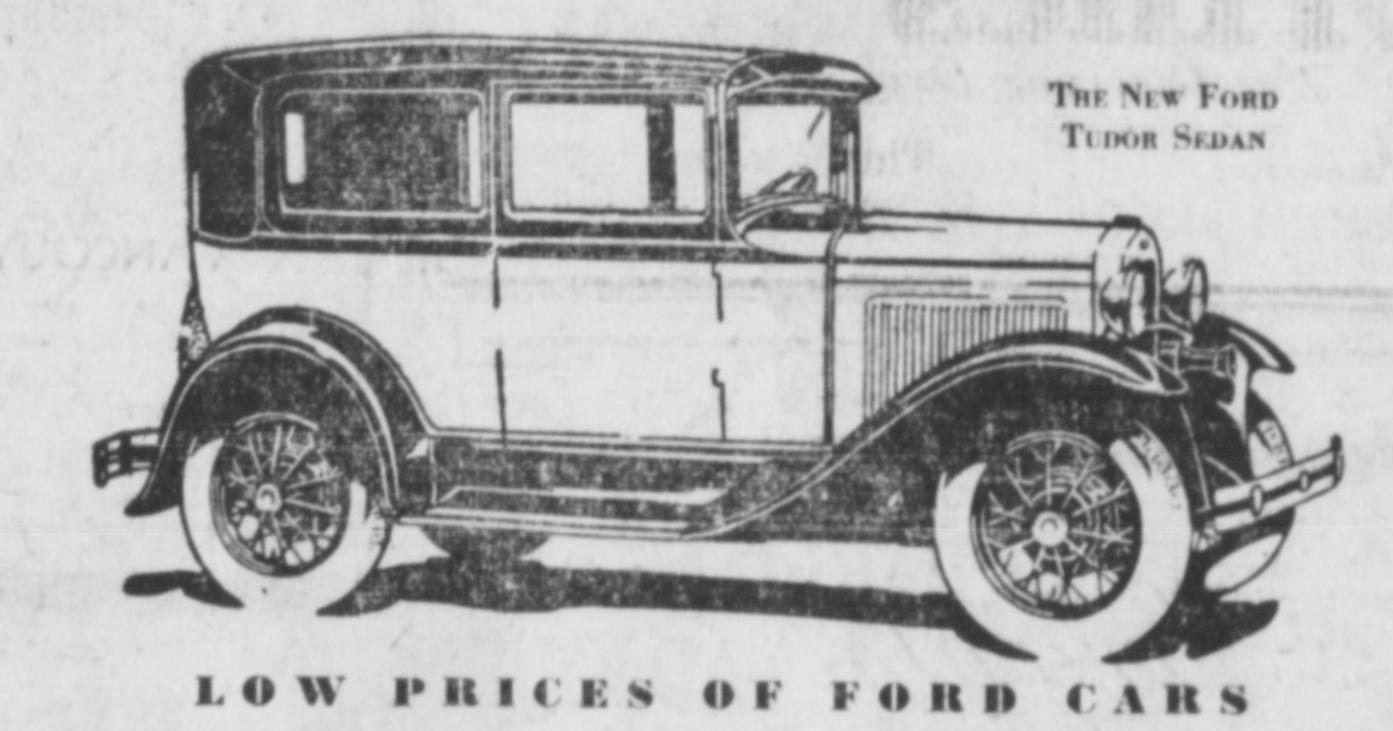

EVIDENCE of the high quality built into the new Ford is the extensive use of ball and roller bearings. There are more than twenty in all - an unusually large number. Each bearing is adequate in size and carefully selected for the work it has to do.

At some points in the Ford chassis you will find ball bearings. At others, roller bearings are used. The deciding factor is what is best for the car and for Ford owners.

The extensive use of ball and roller bearings in the new Ford insures smoother operation, saves gasoline,

increases speed and power, provides quicker pick-up, decreases noise, and gives greater reliability and longer life to vital moving parts.

Other outstanding features that make the new Ford a value far above the price are the shatterless glass windshield, silent, fully enclosed four-wheel brakes, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, torque-tube drive, three-quarter floating rear axle, Rustless Steel, the extensive use of fine steel forgings, and unusual accuracy in manufacturing.
