HOOVER TELLS OF CONDITIONS IN RUSSIA

Says Socialist Ideas Are Being
Abandoned in Order to In-
crease Production.

Examining the results of Bolshevik Government in Russia, Herbert Hoover, in a recent address before the American Institute of Mining Engineers said: "Today two-thirds of the railways and three-fourths of the rolling stock that they control are out of operation. The whole population is without any normal comforts of life and plunged into the most grievous famine of centuries. Its people are dying at the rate of hundreds of thousands monthly from starvation and disease. Its capital city has diminished in population from nearly two million to less than 600,000. Prices have risen to fantastic levels. The streets of every city and village have run with blood of executions; nor have these executions been confined to the so-called middle and upper classes, for, latterly, the opposition of the workmen and farmers to this regime has brought them also to the firing squad in appalling numbers.

"If we examine the recent proclamations of this group of mixed idealists and murderers, we find a radical change in their economic and social ideas. They have abandoned the socialization of the land for they find the farmer will not produce for payment in highbrow and altruistic phrases. They have re-established a differential wage in an attempt to stimulate exertion and ambition of skilled labor. "They have established a State Savings Bank, in order to stimulate production through making provision for family and old age. They are offering fabulous salaries for men capable of directing the large agencies of production. In fact, while in the midst of flowery verbal endeavor to maintain that they are still Socialists, they are endeavoring to restore individual ownership of property and of the results of labor. The very High Priest of Socialism is today vainly endeavoring to save his people from their total destruction by summoning back the forces of production. The apologists of this debacle are telling us that it is due to the Allied blockade, and to various other oppositions, but any one with a rudimentary knowledge of Russia knows that they did have within their borders ample supplies of food, coal, oil, wool, flax, cotton and metals, and the factories with which to work them in abundance, and that their sole deficiency is human effort."

PRINCE RUPERT BOYS MAKE REPUTATION IN RUGBY AT VANCOUVER

Jack Tyrwhitt, formerly in the Bank of Commerce in Prince Rupert, is now the captain of the Knights of Columbus rugby team in Vancouver.

While here he gained quite a reputation as a soccer player, which he has now excelled in the rugby game. The full back of the same team is L. Townsley, who was teller for some time in the bank of Montreal in this city. He is now with Bradstreets, Ltd.

The Man in the Moon SAYS:

THAT people are wondering how much of a drop there will be in the price of bacon, now that retailers can make only twenty per cent profit.

THAT some think there will be a raise.

THAT coal may be expensive here but those who have the price can still buy it, which is not true of some cities in the east.

THAT President McCaffery of the Board of Trade is the heavy-weight of the delegation that is going to Ottawa.

THAT with the member for Skeena, the President of the Board and possibly the mayor of Prince Rupert invading Ottawa, there should be some good results.

THAT if they do not get some of the things they are asking for, they should bring back the scalps of the ministers.

THAT the city could not be better represented in a delegation.

THAT Billy Fulton has joined the Royal Order of the Bull Moose.

THAT D'Annunzio seems to be running amuck along the Adriatic.

THAT the passing of the school bylaw was very satisfactory to all except forty-two.

THAT a large majority of people favored the Hays Cove site.

THAT apparently the chief opposition to the former bylaw was the site and not the building.

THAT the "hello girls" gave the gossip mongers a short rest last evening, but they soon returned to their work.

"Shipbuilding and Harbor Construction," a trade journal published at Montreal, tells of progress being made at the Prince Rupert shipyards. The name of this city is being bandied about a good deal, indicating that there is something doing here, and that people are noticing it.
