British Aero Club Cannot Postpone Races But France and Italy May Yet Enter Schneider **Cup Contest** 

LONDON, Sept. 4:—It was made known yesterday that two British airplanes powered with Rolls-Royce engines have actually reached in practice a speed of 405 miles an hour, a hitherto undreamed-of rate of speed, or more than six miles a minute. The Royal Aero Club, having informed Italy and France that it is impossible under the rules to

postpone its races until next year as requested, these countries were expected to withdraw, but the pos- ON LEGAL sibility remained that they might participate in the Schneider Cup races on September 12. Both countries filed names of competitive pilots although they may be unable to submit any machines to seriously challenge Britain's supermarine racers.

### Robert Lawson, Port Essington, District Agriculturalist Sees Great Future For Interior and City; Co-operation Is Advised

When Prince Rupert has a population of 100,000, the Bulkley Valley farmers will do a business of a million dollars a year with the city, prophesied S. S. Phillips, district agriculturalist, Smithers, in an address to the Rotary Club at its luncheon yesterday afternoon in the Commodore Cafe. Already the Bulkley Valley is selling \$75,000 worth

of milk and cream to the city each year and also supplying turkeys, beef, pork, potatoes and other farm New York Law produce. Anyone looking at the 15 JAILED farm exhibits at the fair could easily see how this business could be increased. The people of the interior would like to see Prince Rupert Only One-Half of Aspirants to Legrow and the city would like to see the interior country develop. This was the basis of co-operation.

Mr. Phillips said that any man who was willing to work hard and the law students of the state failgood in the central interior. If he inations, it was announced here farmed well he would be well off in yesterday. a few years. Farmers as a class were the best off during this time of depression for, though they might not be getting much for their produce now, they were living pretty well and were continually improving their places. Last year was the only season in 20 years in which the far-Shorthorns Cleaned Up mers had come near a failure. They raised almost everything they needed. The \$75,000 worth of milk sold VICTORIA, Sept. 4 Cattle from in Prince Rupert was cash to farmthe Prince of Wales E. P. Ranch ers but, in producing this they were near High River, Alberta, made a also doing general mixed farming.
