PREPARE FOR THE FAIR

Those who plan to exhibit flowers or garden or farm produce at the fall fair should prepare now in order to be in a position later to compete successfully. A number of local garden enthusiasts have purchased bulbs, tubers or flower Supporters of Mayor Frank Edwards seeds with a view to landing a knockout when the first week in September comes. In the meantime they will carefully nurture their growing plants, pruning and fertilizing in order to secure the best possible results.

Last year was by far the best flower exhibit the fair has Frank Edwards were filing suit to ever known. This year, if the weather conditions are right, block the recall proceedings yesterthere should be a much better exhibit. Local flower grow- day. ers are planning to build on the experience of last year. tions that there are insufficient Some of them have been spending money freely in their ef- charges to warrant a recall and that forts to make a good showing and they will receive the backing of the fair board in their efforts.

WELCOME TO MINISTER

Today we are glad to welcome to the city one of the active PACKER members of the Tolmie Government, Hon. Joshua Hinchliffe, minister of education. He is showing a great interest in the schools of the city and a program is planned that will give him a pretty good insight into the educational institutions of the city.

While he is here we should like to impress upon the minister the need of the city in the way of highway facilities. Doubtless he will be given authority to drive as far as Galloway Rapids and as a member of the cabinet will have a say in regard to expenditures here. He will realize how cramped the people of the city feel and that the extension of the highway to connect with outside points would be one aska trails in the Gold Rush days, of the greatest educators the city could have.

We are glad to know that work has recommenced on this highway but, at the present rate of progress, it will be many years before the objective is reached.

PLEASURES OF LIFE

Sometimes we hear parsons preach against a person leading a life wholly devoted to pleasure. Yet that is the chief Being Sold in Polish Market at Fifty aim of every person. Some people think to get pleasure from debauchery, others from frivolities of social life while yet others devote themselves to sports, to art, to music, to Russia has introduced a sewing mauplift work, to religion, to self-denial. It is all a matter of chine on the Polish market which likes and dislikes. Some take pleasure in their work and others take pleasure in watching the clock which tells them when to stop work. To them work is drudgery. Every person does as he likes. Educate the likes and dislikes and the best type of man is evolved.

Radio Association Requires Felix Batt to Close Down

Considerable Discussion at Meeting-Toronto Expert is

A meeting of the Prince Rupert Radio Association was held in the city police court last evening, being presided over by President F. W. Wesch.

A matter of considerable importance to Prince Rupert was up for discussion, namely the application of Felix Batt for the Association's endorsation of his project of a broadcasting station for the city. Mr. Batt had already asked the city council, the Chamber of Commerce and the Trades and Labor Council to endorse this project and, in every case, the matter was left in abeyance until such time as the Radio Association passed on

the matter. Mr. Batt outlined his proposition to the meeting and, when asked if the station would cause any interference to local reception he explained that he did not think so. He said he was applying for a station to operate on a wave length of 870 k.c. and it was his opinion that, by using a crystal set, he would not interfere with any other station. Pressed closer by several members as to whether it would interfere with KOMO station (No. 920) he said that he did not think so but was not certain. This caused several members who were not too sure what to do about the matter to come out and say that, if it to provide funds for a recall elec- would interfere with KOMO, they were not at all in favor of the scheme. They all stated that they did not want to block the way of any person who was progressive enough to put in such a station but that, if same was to spoil the reception of other stations now eceived, they were not in favor of

Finally, it was put plainly up to Mr. Batt that the Association would endorse his scheme if he would guarantee not to operate, the station after 7 p.m. until such time as it was proved conclusively SEATTLE, May 6-John ("Packer") Newman, aged 72, one of the to all members that there was no interference caused by the broadcasting. Mr. Batt stated that he died here on Monday following an would like time to think over the matter as he considered that by shutting down at 7 p.m. he would lose the best time of the day. He asked the Association to allow him until 8 pm. This the Association would not do as it was left with Machine Cheap Mr. Batt that, if he would write to the secretary and state that he would agree to shut down at 7 p m., the executive would meet at once and, if agreeable to that body the endorsation would be granted

Protect your ife

nsurance

and it will protect you and yours...

TF financial difficulties tempt you to forfeit any of your Life Insurance, first get the expert advice of the company or companies in which you are insured. They can probably suggest a plan to help you maintain the protection of Life Insurance for yourself and loved

Perhaps you intend to allow your Life Insurance to lapse now and take out new insurance later. If so, remember these three facts:

First-New Life Insurance is certain to cost you much more. Second-You may discover too late that you

are uninsurable. Third—The moment you let a Life Insurance

policy lapse you deprive your wife and children of the protection they need.

Better play safe. Wise counsel from an authorized Life Insurance representative may save you money and prevent future hardship.
