Autumn Rains in England Have Created Alarming Flood Conditions

Bungalows were swept away, houses flooded and streets made impassable by a fierce channel gale along the southern English coast. Here are cattle wading through flooded pastures at Winchelsea

High tides have caused an alarming rise in the Thames river with the water at times swelling over the Embankment. Here are boats, higher than land level, on the Thames.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.
