## The Census of Canada 1931

In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the great national purpose of taking the seventh census of Canada.

The census is really a stocktaking. That is, it provides the information to enable the Government and others interested in the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our people.

All the information supplied is strictly confidential, and the officers of the Government are subject to severe penalty if they disclose any of the information which is given to them by residents in the country, to any other than the Government.

Furthermore, it has nothing whatever to do with taxation, or military service, or compulsory school attendance, or immigration, or any such matter; and the Government itself cannot use it except for statistical totals.

The Government representative will put the same questions to all, and it is your duty as a resident of this country to answer promptly and truthfully. The Government is very anxious to avoid forcing anyone to answer these questions, but it is empowered to do so in the few cases where individuals may refuse.

HON. H. H. STEVENS, Minister
