Welcome Announcement Made This Morning By Mayor Orme—Galloway Rapids, Cloyah Bay and Prudhomme Lake Sites

Mayor Cyril H. Orme made the welcome announcement this morning that he had been advised that instructions had been issued by the provincial department of public works to proceed at once with the opening of three unemployment relief work camps on the local section of the Skeena River Highway. One small camp will be opened in the buildings already provided at Galloway Rapids bridge while two large ones will go in at Cloyah Bay and at the foot of Prudhomme Lake.

Lumber for the last mentioned camp will be hauled in by tractor over the skid road which was built by the Power Corporation of Canada during transmission line construction. Everything is in readiness to proceed with the construction of this camp just as soon as the lumber can be delivered on the ground. It is not, as yet, definitely announced how many men will be employed in these three camps but it is expected there will be at least a few hundred given work therein throughout the coming fall and winter. Opening of the camps will greatly relieve the local unemployment situation. Announcement of the action of the government had been patiently awaited for the past week or so.

Men in the Galloway Rapids and Cloyah Bay camps will work on the completion of the road between those two points. Some of the men at the Cloyah Bay as well as all those at Prudhomme Lake will, it is expected, be employed on building of the new Cloyah-Prudhomme Lake section.
