PUBLIC AWAITS NEW ATWATER KENT RADIOS

1932 Models Represent Greatest Value in History

Dealers are being deluged with inquiries regarding the new 1932 Atwater Kent radios. It is expected that the new models will be placed on display in prominent music stores within a few days.

The new Atwater Kent golden value models are considered to be the finest radio, from the standpoint of value, quality and performance that have ever been produced.

The world trusts Atwater Kent radio and exhaustive experiments and tests were conducted before the new sets were permitted to be released to the public.

The new season's offerings of the famous Atwater Kent laboratories bring with them the greatest values in the firm's history. There are nine models in the new range which will give a wide selection to satisfy every purse and preference. Every one is a magnificent super-heterodyne, with all the most advanced refinements and improvements. New cabinet designs of arresting beauty and grace are finished in genuine No-Mar. A touch of the finger will bring up the glorious golden tone from deep to brilliant, without distortion. This is made possible by the automatic volume control, which is an important feature of the new set.

It will be necessary to see and hear these marvellous new radios to fully appreciate them. Taken in all, it is small wonder that the Atwater Kent golden value range of radios are being eagerly awaited.
