INTERNATIONAL MORATORIUM

The move of President Hoover to defer payment on all international war debts is one highly to be commended. As the largest creditor nation the proposal comes from the United States with likelihood of general acceptance.

Possibly if it is found that the results are beneficial all round, the United States may at the end of the year propose a permanent cancellation of war debts. This would Romantique" (Jackson). cause a good feeling toward the United States which benefitted more than any other nation from war business.

GOT SURPRISE PACKAGE

On Saturday a local man advertised for a stenographer. When he called at the office yesterday morning and the wachs). pile of applications was passed over to him he looked at them and with surprised accents inquired: "My God! Are these all for me?" More comment is unnecessary.

"SNOW AND RAIN SWEEP WEST"

The Winnipeg Free Press recently carried in heavy Cheltenham bold type a streamer across the top of the front page: "Snow and Rain Sweep West." To the prairie Editor, Daily News: people this was a cheering message. Moisture in any form whether snow or rain was welcome to the drought-stricken that fishing the last two weeks farmers.

The fallacy of the message was that it extended only to for. Fishermen performing their Manitoba, Saskatchewan and Alberta. British Columbia, plain about, but the music has which is the real west, was not included.

British Columbia was pleased not to be included in an cause the credit was stopped invasion of snow and rain. Neither are needed in this pro- - hence the bread line. One vince just now. This season the apportionment of moisture young boy was told in an unfriendand sunshine has been very fair and there is no need for by way to go and hang rather than more precipitation in the form of snow.

British Columbia would like to know if this is really the are at the Cold Storage. We said: west or if the whole of the west lies east of the Rocky "Come boy, we will devide with Mountains, as is assumed by many well-meaning persons you." The music of course. in the central part of Canada.

PICK AND SHOVEL AND WHEELBARROW POLICY

Protection is a good enough policy for the people of Ontario and Quebec because they benefit from the establishment of factories in those provinces and reports indicate fishermen's grub stake, so relief that already there is a considerable improvement in busi- work comes next. But the scab, on ness in that part of Canada. In the west there is no corres- very amusing! It reminds me of ponding change for the better and there is little or no benefit to be derived from the government policy of protection. The result is that the west looks to the federal government come an organizer and disorganifor some other help and the logical request is for constructive zer so the red had the honor of tive work that will employ the men who are now drifting first born, but when the scab apabout the country and becoming a charge on the munici- peared Mother Nature ran short palities.

The average man likes to work for his living and it is undoubtedly the duty of the federal government in a crisis to make up for the scarcity in the like the present to see that he has an opportunity to earn Red organizer. enough to carry him through until there is an improvement. There is plenty of money in the country, as was shown by recent federal and provincial loans. All that is needed is for the government to recognize the position of the west today and give the men work.

Premier Tolmie has made proposals to the federal government, which it is to be sincerely hoped they will approve. He has suggested that the federal government and the province of British Columbia co-operate in building Report of Fire main trunk highways and that the federal government construct the western outlet to the Peace River country at once. This work has to be done soon, so why not now when money is cheap and men want work?

This is not a political campaign. It is a campaign to secure bread and butter for the workers who today are in need. It is a request for a pick and shovel and wheelbarrow policy for the west to balance up with the protective pol-

icy for the east.

SALMON FISHERIES TROUBLE

It may interest you to known has been all that we could hope been poor of late, evidently bebe a scab, Same boy came to me and others to camp. Of course well

Another young man had his lines cut by some creeping michief and lost a lot of lead and spoons. Same young man said he could not even afford to take a meal in the hotel scow now any more.

The time is slipping by for the Mother Nature's twin boys-the red and the scab-because of the conof the gaudy color but instead previded him with grit to perform his lawful duty and plenty of brain;

Dundas, June 17, 1931. P.S.—It would be nice to have police boat here when the Reas start to go wild in public waters, which is the next threat. K.O.

Chief on Recent Vancouver Meet

Declaring that he had seen and learned much of value at the gathering, Fire Chief D. H. McDonald presented to the city council last night his report on the recent convention in Vancouver of the British Columbia Fire Chiefs' Association. All conceivable means of fire fighting had been discussed and there were many impressive demonstrations including one of ladder work by the Vancouver fire department.

Ald. Macdonald, in moving that the report be filed, declared that the chief was to be congratulated upon the excellence of the report. Th city had been none the loser by having sent him to the convention. Mayor Orme concurred in the remarks that had been made by Ald. Macdonald.

real so crisp. Rice Krispies actually crackle out loud in milk or cream. Children love them.

And such flavor! The taste of toasted rice. A different treat for breakfast. Wonderful for the kiddies' lunch. So wholesome and easy to digest. Rice Krispies are handy to use in recipes. Take the place of nutmeats. At grocers. Made by Kellogg in London, Ontario.

"—with all his worldly goods"

TIERE, in this old strong-box, so long guarded and locked, is his "estate" . . . the "worldly goods" which he has bequeathed to her.

One by one her adviser takes out the temptingly engraved certificates and examines them. One by one he lays them down with a sorrowful shake of the head-

Slowly the truth dawns upon her. Those wonderful purchases that were to make them rich . . . independent. These specula-

tions that were to lead them

to fortune . . . many of them now are WORTHLESS!

But at the bottom of the box there lies an unpretentious document, which suddenly she recollects. It cannot have depreciated. It must still be safe and sure . . .

She reaches in and draws forth his Life Insurance Policy.

Amid the wreckage of thousands of estates, Life Insurance stands as the final and enduring refuge in time

> of need. It is the one investment no man can afford to be without.
