MINISTER WAS VERY ACTIVE IN OTTAWA

Hon. T. D. Pattullo Pressed on Ministers Need of Wharf Accommodation Here.

A special despatch to the Daily Province of Thursday last says: Hon. T. D. Pattullo, minister of lands for British Columbia, has completed his work in Ottawa and is leaving tonight for Victoria. He has taken up a number of questions with the departments and cabinet minister and is well satisfied with the result of his visit to Ottawa.

Mr. Pattullo has arranged for co-operation between the province and Dominion for a thorough investigation of the reclamation of 20,000 acres at the Kootenay flats. The project is one affecting both the United States and Canadian governments, and the Canadian authorities have already taken up the question of a joint investigation with Washington.

Groundhog Coal.

Mr. Pattullo urged upon the railway department the desirability of carrying on investigatory and survey work in the Groundhog district with a view to opening up the coal areas there tributary to the Grand Trunk Pacific.

He also arranged with the militia department for co-operation with the British Columbia forest department in the establishment of wireless stations for forest protection work. The minister discussed with the members of the recently formed air board plans for co-operation between the province and the Dominion to carry out aerial operations both for forest protection and survey work. The members of the Air Board were quite willing to co-operate as soon as their plans are sufficiently developed.

Prince Rupert Wharf.

Mr. Pattullo took up with the public departments the necessity of constructing better wharf accommodation at Prince Rupert to take care of the growing fishing industry, which is of national as well as provincial importance. He offered on behalf of the Government of British Columbia to provide a waterfront at Prince Rupert for this purpose if the Dominion Government would construct the wharf. This will likely be done.

He took up with the town planning and housing department the necessity of some provision being made to assist returned soldiers to purchase houses already constructed. Plans for co-operation between the publicity department of the natural resources intelligence department and British Columbia, for publicity work for the province, were completed. The natural resources branch has facilities for developing colored slides and photographs, and these will be made of projects being carried out in the province.

Mr. Pattullo discussed the question of the development of Mount Robson Park with the interior department. The Dominion is already developing Jasper Park, and if an understanding can be reached, will extend the road-building, etc., to Mount Robson Park.

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.
