### FORGET POLITICS

Just now the government of Canada is floating a loan under Section 56, Sub-Section 2 of get nothing at all. I think we should for the purpose of carrying on the business of the coun- the N.B. The loan is being backed by Hon. C. A. Dunning, Premier Taschereau of Quebec, and a number of other prominent Liberals, but even if this were not the case, we owe it to Canada to do our part in a crisis.

### IRELAND TODAY

It seems rather sad to think that after a long period of placed in the custody of the pre- lions of dollars trying to compete quiet there should be a return to more or less riotous con- ventive service mending appraisal at Vancouver with the Canadian ditions in Ireland. Powers have been given the govern- and payment of duty. ment there somewhat similar to those given the government when the administration was centred in London. The Public Safety Act is one giving the right to arrest and culmination of six weeks of day and Thornton and his colleagues are secret trial and summary conviction and sentence. It has night effort on the part of the po- not out to develop this part of the all the powers of the ancient Star Chamber.

There has been a great deal of opposition to the measure Monday. but the demonstrations have lost their thrill since they are against Ireland and not against England.

Probably the measures taken may prove effective and no more be heard of the sedition movement.

### TAKING A REST

Everyone will sympathize with Premier Bennett in the physical breakdown which has resulted from a period of overwork and worry. Finance has been one of the chief sources of his troubles, not personal finance but the financing of the country. Gradually there has been an increase in financial pressure until the iron nerves of the head of the government snapped and he had to leave for Europe to recuperate. We might all help him to recover by showing that in the hour of financial need the people can be trusted to do the right thing. As he basks in the sunshine of the Mediterranean it will be good news to him to hear that the Canadian loan has gone over big and that Canada is a country of which he may well be proud to be the governmental head. With this knowledge he will rest much more satisfactorily.
