WORK FOR THE WORKLESS

It seems as if Premier Bennett was seriously considering scarcity, according to the weekl" miles farther on. He has already the situation in regard to employment needs during the crop report of the department of staked one with his companion six coming winter but whether or not he is sufficiently impres- agriculture, Canadian Nationa claims covering this whole island, sed to insist on the commencement of work on the western Railways. outlet of the Peace remains to be seen. Prince Rupert strose Lettelier. Harte. Miami to confer with geological experts of seems to have done her share in urging that work on this Pleasant Point subdivisions in the Dominion Government. After undertaking be commenced soon. If any place has not wired Manitoba, crop conditions have im visiting his home in Detroit he the Premier, we urge that they do it at once. Also private proved and where headed out heads plans to return by airplane to the Jazz is said to be dying. Also i telegrams might help, especially from those who support are filling well and additional north country, where he will spend might be mentioned that they tried the present government.

GERMANY'S FINANCES

Some announcement seems likely to be made in regard vail next spring a considerable into what relief if any Germany is to receive from the other crease in grasshopper ravage can powers. The conference tonight should decide on some be expected. Summerfallow crops definite policy.

It is very difficult at this distance and with only a small part of the information before us to intelligently form an down their early sown wheat cal purposes. As the work develops opinion. American visitors, it is noticed, seem almost a unit which is too far gone to insure in thinking all the powers should fall in line with the ideas crop. This land is being reseeded of President Hoover. Many of those here who were in the barley for feed. war feel differently about it. Doubtless, the representatives of the Empire with all the facts before them will van, Lampman, Avonlea, Gravel make a wise decision.

SKEENA DOING HER DUTY

. The Skeena River seems to be doing her duty again in aged crops and where fields will providing a plentiful supply of sockeye salmon for the canneries, from which the fishermen take a little toll. Good money is being made by many, although nothing like last year when prices were high.

We all like to see the fishermen make money because it subdivisions and wheat is headir means prosperity to the whole city. It is a good thing that out but straw is very short. A few possibilities emerge beyond the im- in the city he did not lift forty the fisheries have not followed in line with the prairies and narrow strips of hail did some agination of all except modern sci- cents from the Tolmie Government failed in providing a crop. The salmon crop promises well, due doubtless, to the wise policy of protecting the spawning fish and seeing that sufficient get past the nets every year to keep up the supply.

SPLENDID EDITION

The Stewart News has just published a fourteen-page special number as its contribution toward the big international celebration which is proceeding today. It is a first needed as grains are backward. rate paper and gives a lot of valuable information about the Portland Canal district and its mines. The publishers Three Hills, Red River subdivisions deserve to be complimented on their effort, and the paper of Alberta report conditions imshould receive the best possible support from the com- proved as weather was favorable munity it serves.

Orang-Outangs Prove Treacherous

George Bistany, director of Fleishhacker zoo, SanFrancisco, and Charley, orang-outang, used to be great friends until recently. When entering cage Charley and other Simians turned on him ists.
