that Kellogg's Corn Flakes have a special package that is different from all others?

. . a WAXTITE, inside bag perfected and patented by Kellogg?

• • a WAXTITE bag that is actually SEALED against odors, moisture and contamination?

· · that brings Kellogg's Corn Flakes OVEN-FRESH and FLAVOR-PERFECT to your table?

Just another reason why it pays to specify the name Kellogg's when buying corn flakes. One of the most economical and convenient of foods.

Delicious with milk or cream for breakfast; extra welcome for lunch with fruits or honey; fine for children's suppers or a late snack.

Easy to digest. Always ready to serve. No trouble. No work. With a "wonder" flavor that can't be equaled.

Look for the red-and-green package at your grocer's. It means genuine Kellogg's - the original Corn Flakes — the world's most popular ready-to-eat cereal!
