Ernest Smith, Kitwancool, at whose home Mr. and Mrs. Brown had been guests on the night in question, told of Samuel Douse coming into his house by the back door uninvited late on he night of January 9 or early in the morning of January 10. Witness asked Douse why he had come and what he wanted but accused made no answer nor did he have anything to say. Witness took Douse outside to the gate and told him to go home. Smith then returned to his bed and did not waken until next morning when people knocked at the door of his room, advising him that Brown wound in Brown's forearm which witness helped to dress. Smith did not see that Douse was drunk. He himself, did not take liquor as he had been told by a medical-adviser that he should not on account of his health.

Under cross-examination, Smith denied that Douse had come to his house inviting anyone who needed shelter to go to his (accused's) house. Witness aid not push accused out of the house but took him out quietly. Douse did not object at being sent away. Witness heard no dogs barking during the night nor did he hear a shot fired. Witness did not know anything personally against Douse. He had not seen any home brew at the totem pole feast. He had never touched intoxicating liquor himself.

Wouldn't Go Home

Jacob Morgan, Kitwanga, wh was the guest of Louis Johnson next door to Ernest Smith's, went to bed about midnight and was aroused by loud talking. He went outside and could see Ernest Smith bringing and summer goods of the finest Samuel Douse around the upper quality and the patterns of the very end of his house. Witness also advised Douse that he had better go stay here all night." Douse was not the city. intoxicated, Morgan asserted.

He knew they were Sam Douse, Silas Brown and Matilda Brown from the voices he heard. He heard Silas and Matilda telling Samuel to go home. He heard Samuel say he wanted Silas and Matilda to go with him. They went away in the direction of Douse's house.

Not long after, Fowler heard voices again. He heard Matilda say: "We had better go home, Sam is going to shoot us." Samuel ordered Silas to stand and repeated the or-Most important of several native der. Nephew Accused

Walter Douse, nephew of accused was the final witness at the afternoon session. He had left the feast at Richard Douse's house before it was over as he had guests at his house for whom he made some coffee before they retired. Witness explained that visitors were gathered in Kitwancool from Witwanga, Kitsegucia and Vanarsdol villages for the purpose of attending the totem pole raising celebration. After re- bowing position as if from weaktiring, witness awoke and, while awake, heard a gun go off and woman's scream.

After rising, witness followed Samuel Douse to his house and took the gun away from him, hiding it behind a cupboard in his own house and not parting with the weapon until he gave it over later to Constable Raybone. Witness identified the 30-30 Savage hammerless rifle as being the gun he had taken from Samuel. It was also the same gun that accused had had when the couple went hunting in April, 1930. He could tell it because it had been sawed off and a new sight mounted. When witness took the gun it was empty both of shells

and empty cartridge. Under cross-examination, witness asserted that he had never had words or trouble of any kind with Samuel. Witness denied that Samuel had spoken to him about the former stopping drinking. It was after and not before the shooting that he had come in possession of d been shot.
