Pile Borers to Be Investigated

Biological Board of Canada to Look Into Question of Parasites

The Biological Board of Canada is making preparations for invesligations into the breeding habits

of the native ship or pile borer. Owing to the large amounts invested on this coast in vessels and wharves, this matter is of great

economic importance. A series of test blocks will be operated at selected points on the

The various factors bearing on the subject will be investigated and, as it is generally presumed, that the danger of borers is greater at certain seasons of the year, such danger periods will be determined.

Make This Test of the HEART

To gauge the condition of the heart, there is a simple test which anyone can make. Medical men agree that it is unrivalled as a means of finding out if the heart is in health or doing its work under difficulties. "Are you short of breath when

going up stairs?" The extent to which you are inconvenienced under this strain will tell you how serious may be the condition of your heart.

In most cases, the trouble is caused by a weakness of the blood and a run down condition of the nervous system. The logical prescription is Dr. Chase's Nerve Food because this treatment enriches the blood and strengthens the nerves of the heart, as well as those of the other vital organs.

This reconstructive treatment has prover effective over such a long period that you can use it with the fullest confidence that the results will be most satisfactory.
