PEACE RIVER OUTLET

Premier Tolmie may be forced by public opinion in the south to attend the conference on the Peace River outlet but whether he goes or stays at home he must remember that he does not have the unanimous backing of the people of the province in his efforts to force the hands of the railways in the matter of taking over the P.G.E. and continuing it to the Peace country.

Northern British Columbia with the exception of Prince George is opposed to it, we may safely say, and there are parts of Southern B.C. which are not very enthusiastic.

Premier Tolmie should also remember that political expediency is not everything. Building the P.G.E. was undertaken as a policy of political expediency because the people were ready at any time to vote for another railway, especially a line leading to Vancouver. Possibly they might vote in favor of spending more money on the P.G.E. but we are doubtful of it. We are more inclined to think they would turn down such a proposal.

It will be noticed in connection with the movement in Vancouver that it is persistent propaganda of one newspaper that carries it along. The more sober thought of the others is against taking action that is bound to prove injurious to the province in the long run.

ACTION NEEDED THIS YEAR

Action on the Peace River outlet is needed this year to provide for the unemployed in the fall. If the Dominion Victoria Day does not undertake some big work of this kind, it will be necessary to spend the money in some other way in providing for those who are without money and without the means of acquiring any. It would seem to be the height of folly to proceed with the policy of doles when there is so much work to be done and so many people anxious to work rather than receive meal tickets as was done last year.

If a few thousand men were set to work on the western which was held at Sandspit on Monoutlet of the Peace River there would be a general revival day was the large gathering of old of business in the west which would to a large extent cope with the employment situation and bring about a better

industrial condition everywhere.

The Census of Canada

In the opening weeks of June every family and every home in Canada will be visited by a representative of the Government for the great national purpose of taking the seventh census of Canada.

The census is really a stocktaking. That is, it provides the information to enable the Government and others interested in the development of the country to formulate progressive policies for the happiness, comfort and prosperity of our

All the information supplied is strictly confidential, and the officers of the Government are subject to severe penalty if they disclose any of the information which is given to them by residents in the country, to any other than the Government.

Furthermore, it has nothing whatever to do with taxation, or military service, or compulsory school attendance, or immigration, or any such matter; and the Government itself cannot use it except for statistical

The Government representative will put the same questions to all, and it is your duty as a resident of this country to answer promptly and truthfully. The Government is very anxious to avoid forcing anyone to answer these questions, but it is empowered to do so in the few cases where individuals may refuse.
