

Heart and Nerves So Bad Was Unable To Sleep For Hours

Miss Theresa M. Ravary, Gallington, Ont., writes:—"I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few weeks I could enjoy a good night's rest, and rapidly regained my former state of health."

Thermometer Was Lowest of Winter Last Night at 21 Degrees Above Zero

After recording 21 degrees above zero, or 11 degrees of frost, the coldest weather Prince Rupert has experienced this winter, the cold snap of the last few days gave evidence this morning of breaking up. The barometer was dropping and the sky was starting to cloud up although the wind had not changed up to 9 o'clock.

The bitter northeast winds of the past couple of days damaged spring growth in many city gardens. With the unseasonably mild weather prevailing before the cold snap, a number of plants had started to sprout quite high and it was these that were nipped.

OTTAWA, CANADA

To Canadian Citizens,
Everywhere in Canada.

Bring the Boys and Girls Back Home!

How often have we all deplored the fact that thousands upon thousands of our most promising young men and women find it necessary to leave Canada, in order to seek in some other country opportunities for the employment of their talents that seem to be lacking here?

As individuals we have deplored it, because in these cases the sorrow that is caused us through the breaking of family circles and home ties is accentuated by a sense of irrevocable loss, due to a feeling that the separation is going to be permanent. And from a broad national standpoint we have deplored it, because it has meant a serious drain upon the very kind of population—gifted, energetic, ambitious—that we most need to help in developing our magnificent natural resources.

Must we continue to rear and educate our children—to equip them as best we can for the successful careers we hope will be theirs—only to lose them to an alien flag because of the dearth of opportunity for them at home?

Opportunity of any kind is a result, of which production of some kind is always the cause. Most people create their opportunity by engaging directly in some form of production, such as farming, fishing, mining, lumbering or manufacturing. These people provide the foundation and, according as they succeed, opportunity is created for others in all the occupations that constitute the super-structure, such as transportation, banking, insurance, trading, the professions and public service.

The more the people of a country favor their own producers, thus giving the latter all the incentive necessary to increase the volume and broaden the scope of their production, the more abundant will be the immediate opportunities they create for themselves, and the future opportunities they create for their children.

If in the past opportunity has not been as abundant in Canada as it has been elsewhere, it is because Canadian producers as a class have not been as successful as producers elsewhere have been. And the chief reason our producers have been less successful is because they have failed to receive from Canadian citizens generally the same loyal support that the producers in certain other countries have received from their citizens.

Some of these countries import practically nothing that they are capable of producing for themselves. But we Canadians are so careless about our daily buying, so thoughtless of the welfare of our producers, so shortsighted about keeping the door of opportunity open for our sons and daughters, that every working day we allow ourselves to be sold about \$2,500,000 worth of imported merchandise that our own producers would have been glad to make for us, if we had only given them the chance!

Why not let us all resolve that from now on we'll try to bring our boys and girls back home by remembering, in our buying, that it must always be "Canada First"!

Very sincerely yours,

A. A. Stevens
Minister of Trade and Commerce.
