

SHINE UP YOUR
Champagne
GLASSES

IT IS GAYER, of course, to have a bubbling drink sparkling in your champagne glasses for every dinner—and surprisingly inexpensive, if it's The Champagne of Ginger Ales—Canada Dry.

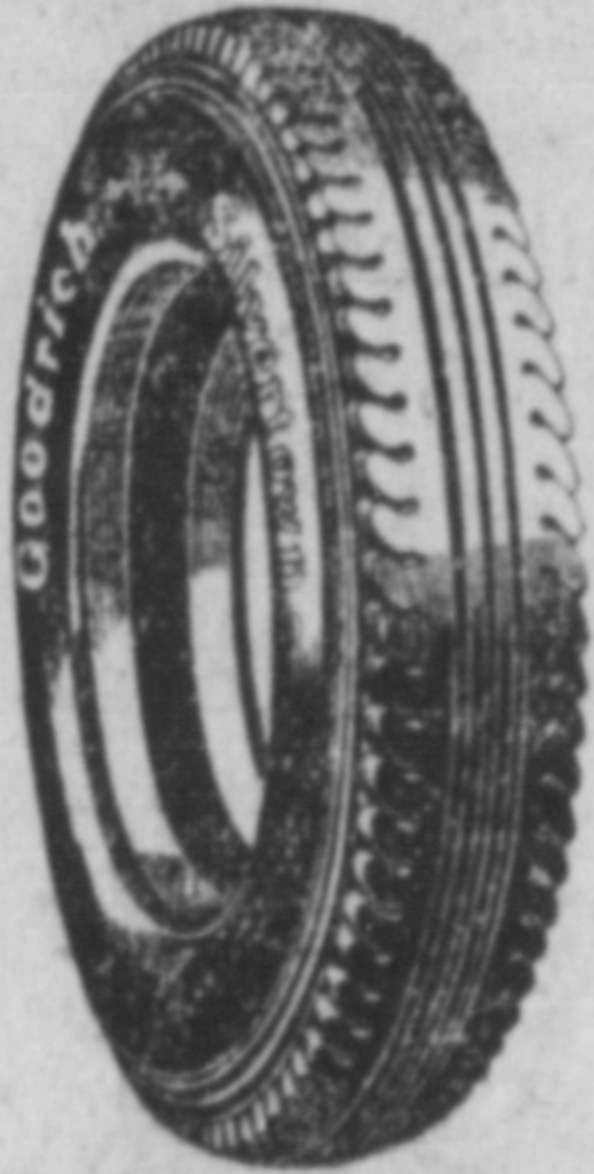

Canada Dry is a beverage worthy of a champagne glass, for it is an aristocrat. Frosted-gold in colour, with a delicate aroma, and a flavour as elusive as that of a rare old vintage—it has won the patronage of royalty the whole world over. You couldn't buy a purer, more healthful ginger ale—nor a more delicious one.

For convenience order the handy cartons of six or twelve bottles. Then you will always have an ample supply of this fine old ginger ale.

Canada Dry now comes in two sizes—the familiar 12-ounce bottle and the new five-glass magnum.

TWO CONVENIENT SIZES
Magnum size (plus 5c bottle deposit) 30c
12-ounce size (plus 3c bottle deposit) 20c

LOCAL NEWS

H. S. Parker returned to the city on yesterday afternoon's train from one of his periodical business trips to various interior points.

Miss Palmira Astoria, who has been spending a vacation visiting in the interior, returned to the city on yesterday afternoon's train.

The Pacific Steamship Co.'s steamer Admiral Wiley has been at Ocean Falls during the last few days loading paper for California.

A. Beaudin and son of Alice Arm who have been on a two-weeks' trip to Vancouver, were passengers aboard the Catala last evening returning north.

Inspector John Macdonald, provisional police, will sail on the ss. Prince Rupert this afternoon for a trip to Ocean Falls on inspection duties.

Mrs. George Frizzell, who has been spending the past five months visiting at Los Angeles and elsewhere in the south returned home on the Catala yesterday afternoon.

Sam Jabour has secured the services of W. O. Grant, merchandising expert of Vancouver, to close out Jabour Brothers Ltd. bankrupt stock. Mr. Grant will be in full charge.

Constable J. H. McClinton, divisional clerk for the provincial police here, sails this afternoon on the Prince Rupert for a two weeks' vacation trip to Vancouver and Victoria.

Carl Grafstrom, manager of Butevale cannery and cold storage plant, is paying a brief business visit to the city, having arrived from down the coast on the Catala yesterday afternoon.

There were 106 passengers on board the steamer Princess Louise Saturday afternoon when she arrived here from Skagway and other Alaska points. Five passengers disembarked from the vessel here. Forty-eight were round trip tourists returning south.

Whiskers, Plain and Fancy

Whiskers, black ones, brown ones, some yellow ones and a few red ones, are seen sprouting from the noble chins of these men of the "briny deep" who returned to Boston recently aboard the United States steamer Milwaukee after a long water trip. These boys may be relatives of the well-known Smith Brothers—who knows!

NORTHERN B. C. NEWS

BURNS LAKE

A Western Canada Airways plane has been making headquarters on Burns Lake during the past week, being engaged in taking surveyors to Thutade Lake. A plane of the Consolidated Mining & Smelting Co. is also based here for the summer.

Nohr Hauer, who is now in the forest patrol service at the east end of Francois Lake, had an encounter with a grizzly recently but he managed to scare the animal off before it came too close.

SMITHERS

R. J. Cromie, publisher of the Vancouver Sun, addressed one of the largest public meetings ever held in Smithers on Tuesday night of last week, the subject of his discourse being his recent trip around the world, and Canadian trade opportunities.

Percy Davidson has been appointed by the village commission as chief of the Smithers fire department. E. Hann and H. G. Windt have been acting jointly as fire chiefs for some time.

Charles Newitt, well known pioneer rancher of the Glentanna district, lost his home recently in a forest fire which did great damage to timber stands.

T. E. E. Greenfield, for several years identified with the Royal Canadian Mounted Police in the district, has purchased the Telkwa Hotel from P. Slavin.

Six hours of heavy rain on Tuesday night of last week considerably brightened up crop prospects in the Bulkley Valley.

ALICE ARM

There has been an epidemic of cutworms here recently and they are playing havoc with local gardens. Hunting cutworms has become the chief occupation of local horticulturalists.

The sawmill building, which has been a landmark at Alice Arm for many years, is now being demolished. Prior to his departure for the south last week, Al Falconer sold the structure to Gus Anderson who is tearing it down in order to have lumber for future use.

A. D. Yorke has been elected president of the Alice Arm Athletic Club, succeeding J. Trinder, resigned. Ted Kergin was elected vice-president in place of Al Falconer, who has left town.

Mrs. C. W. Ruckhaber arrived from Anyox last week and is spending a holiday visiting here with Mrs. J. Wier.

The Alice Arm Athletic Association held an enjoyable and well attended card party at the club house Saturday night.

TERRACE

The village authorities have at last got the scarifier on the streets and a great improvement is seen.

Mr. and Mrs. G. Russell have left for the Salmon Arm district after spending a couple of years here.

Mr. and Mrs. R. deKergommeaux and family left on Friday for the south where they intend to locate. They shipped their car to Hazelton whence they propose to proceed by road.

Employment on the roads here is gradually fading out. Up to now the men have been given 12-day spells, but from now on these are to be reduced to six days and with a long waiting list, it seems to mean just one step above destitution.

PRINCE GEORGE

The Canadian Engineering Co. Ltd., which has been looking over the local light and power plant with a view to purchasing it, has decided to defer action for the present. A survey of the local situation revealed that it was not as satisfactory as they had anticipated. The concern is, however, still interested and may submit another offer later.

A coroner's jury here on Monday last returned a verdict of death by misadventure in the case of John N. P. Bennett, the young English lad, who started out from Pouce Coupe last fall to make the trip to Prince George by way of Pine Pass and whose body was found recently on the trail. It was established that Bennett had died of starvation and exposure.

R. J. Cromie, publisher of the Vancouver Sun, addressed the Prince George Board of Trade at luncheon last Wednesday. Mr. Cromie predicted that conditions would force the continuation of the Pacific Great Eastern to Prince George and into the Peace River country.

God the Preserver Science Subject

The subject of the lesson-sermon in all Christian Science churches and societies on Sunday was "God the Preserver of Man."

Among the Bible texts included in the lesson-sermon was the following from Romans 8:35: "Who shall separate us from the love of Christ? shall tribulation, or distress, or persecution, or famine, or nakedness, or peril, or sword?"

The lesson-sermon also included the reading of citations from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy, one passage being as follows: "It is ignorance and false belief, based on a material sense of things, which hide spiritual beauty and goodness. Understanding this, Paul said: 'Neither death, nor life, nor things present, nor things to come, nor height, nor depth, nor any other creature, shall be able to separate us from the love of God.' This is the doctrine of Christian Science: that divine love cannot be deprived of its manifestation or object; that joy cannot be turned into sorrow, for sorrow is not the master of joy; that good can never produce evil; that matter can never produce mind nor life result in death. The perfect man—governed by God, his perfect Principle—is sinless and eternal."

Monday and Tuesday
TWO SHOWS — 7 & 9 P.M.

BARBARA STANWYCK in

"TEN CENTS A DANCE"

With Ricardo Cortez, Monte Owsley, Sally Blane.

She was a dance hall hostess but the band never played "Home, Sweet Home" for her.
