SPOKANE'S EXAMPLE

As mentioned before, the present plan of handing out meal tickets to men who are out of work is anything but a good system. Only the fact that the city is unable to get any help from doing it any other way compels the city council to do what it does.

From a recent number of a Spokane newspaper it is seen that in that city the men work three and a half hours a day for their meals and a night's lodging. If the provincial and federal regulations were such that the municipalities could do the same as Spokane it would be much better for the men and the city would receive some return for the money expended. The men who receive help would feel better and there would be general satisfaction instead of the general protests that are heard today.

If the two hundred odd men who are today getting city relief were put to work on clearing up the parks, there would by spring be enough clearing done to make the nucleus of a playground which would be very valuable to the city. But the city cannot afford to stand all the expense of doing this and the governments will not pay any of the cost if the men are put to work.

We are not saying this because there are Conservative governments in power at Ottawa and Victoria. Conditions were no better under the previous governments. It seems that if the governments pay a share when relief is granted for work done, the municipalities take advantage of the situation to get municipal work done cheaply. As it is, direct relief is given only to the men believed to be absolutely destitute. What we suggest is that the federal and provincial authorities get their brains working and evolve some scheme by which direct relief can be given and the men be compelled to do a reasonable amount of work for what is given them.

PECK'S CONSTITUENCY

The Liberals have decided not to contest the constituency vacated by Colonel Peck recently. It is to be hoped that no candidate will take the field, as was done in Prince George. It would be much better to save the province the expense of an election and keep the powder dry for the big fight when the general election takes place. An opposition candidate today goes into the fight with a great handicap and the outcome means nothing.

The church was crowded to overflowing for the evening service and people had to be turned away. There were two selections by the Varden Singers and, in addition to preaching, Mr. Fosse sang two solos in fine voice.

Mr. Fosse will continue his revival services here nightly this week.

ATTENDED MEETINGS

John Dybhavn Reports On Doings of Biological Board of Canada

Returning last week from Ottawa where he attended the annual meeting of the Biological Board of Canada, John Dybhavn, Pacific Coast director of the board, states that the proposed experimental vessel for the Prince Rupert Fisheries Experimental Station will not be built at present owing to existing economic conditions.

At the request of the minister of fisheries, Mr. Dybhavn reports, the Biological Board is undertaking an investigation into the nutrition values of canned, frozen and fresh fish in order that the information thus obtained may be available for the Canadian public. The idea is to bring about a greater appreciation of fish as a food.

The question of conducting winter courses in navigation and other allied subjects for fishermen at Prince Rupert will be looked into and likely arranged for next winter.

Archdeacon Hodson and Wife Honored

On Friday, January 9, the congregation of St. Paul's Anglican Church of Ocean Falls paid a surprise visit to Venerable Archdeacon and Mrs. E. Hodson, in commemoration of the silver anniversary of their wedding. During the evening a presentation of a silver tea service from members of the congregation was made, while from their family they received a bowl and candlesticks designed in silver.

MONTREAL IMPORTERS

The "MARRIAGE" of THE WHITE HORSE

"WHITE HORSE" is the brand most favoured by Scotsmen and they are the greatest connoisseurs of whisky. Could you make a wiser choice when choosing whisky for yourself?

"WHITE HORSE" is Real Old Scotch. First matured and then blended, it is again matured and reblended, so that the whisky becomes properly married. This marrying of "WHITE HORSE" is a very lengthy process and the result is a right noble spirit, of subtle and distinctive aroma and bouquet, soft, smooth and very pleasing to the palate, without a trace of kick or bite.

As a heart tonic and digestive "WHITE HORSE" stands supreme.
