WHERE SHALL WE BUY

Just now there are a number of young people just graduating from the High School and they are looking for positions. Local merchants are unable to employ them because business is too quiet.

The parents of some of these young people send out of town for many of their supplies. They do not patronize the home people yet they like the home people to employ their children. What is to be done?

Local merchants have been reducing their prices until in most cases they are down to the level of the big city prices. In some cases they are less. It is possible to go around town and pick up many lines of goods that cannot be duplicated at the price in Vancouver. Also there is a good selection.

We suggest that it is good for Prince Rupert for the residents to buy at home and it is good for the residents themselves.

NEED OF PUBLICITY

There is great need of publicity for the highway between Kamloops and Hazelton according to people who have made the trip. Few people realize that there is such a highway and many who drive over it never see the interesting features. What is needed is a guide book to be prepared jointly by the people along the route such as Williams Lake, Quesnel, Prince George, Vanderhoof, Burns Lake, Telkwa, Smithers and Hazelton. It would indicate to tourists where the worth while things were to be seen. Then along the highway there should be notice boards indicating to tourists where to look for the outstanding features.

At present the route is wholly unorganized and unexploited and the towns along the route get very little benefit from it.

RATES ON CARS

No results have yet been obtained from the agitation for lower rates on automobiles between Hazelton and Prince Rupert. The charge of \$40 is out of all proportion to the service rendered and the distance covered. A small car can be shipped to Vancouver for the same price. The rate needs to be cut in half before it will prove attractive to enough people to make the business worth attending to.

MUSICAL ORGANIZATION

The Russian Chorus coming this week under Gyro auspices is said to be an outstanding musical organization and worthy the attention of all local people who are interested in vocal music. The Gyro Club is to be congratulated on its public spirit in deciding to bring such an organization to the city and the response of the public should be satisfactory to them and to the visiting musicians.
