Eighty Men Thrown Out of Work Through Operations Being Stopped at Stewart

Throwing some eighty men out of work, the Prosperity mine on Marmot River at Stewart was closed Inspector John Macdonald, pro- down at the end of the week by the from Stewart on the Prince Charles last evening.

As far as can be learned here, was Premier closed operations on the the Prosperity owing to heavy cost of ore is loose and heavy timbering is required to mine it. Of course, the depressed state of the metal market is primarily responsible.

Premier has been shipping highgrade ore from Prosperity for over a year and the company reported substantial profits on the operation. Of late, however, considerable ore has been piled up without being shipped it was a case either of piling up ore indefinitely or closing down.
