MESSAGE OF BERG

Manager of United Pacific Fisheries Returns to Ketchikan

KETCHIKAN, April 13.—J. E. Berg, manager of the Marlyn Fish company and directing manager of the United Pacific Fisheries for Alaska, arrived home on the Admiral Rogers Saturday night with the message that arrangements have been completed for handling of all halibut offered. He said this included selling agencies in the east and financial arrangements. Mr. Berg, in company with S. J. Kwapi, made an extended trip east to Chicago, New York and other cities. The two men on their return to Seattle conferred with fishermen and vessel owners there. Mr. Kwapi is expected to arrive here in another week's time.

Mr. Berg said that the ambition of halibut fishermen and boat owners to stabilize the market was about to be realized. His company, he said, will have its own selling representatives in Chicago and that large commissions which formerly were paid to middlemen will go to the fishermen, after deducting the bare expenses of boxing, shipping, rail charges and ordinary expenses of operation for the functioning of the United Pacific Fisheries, which is their own company.

BLAZE IN BAD SPOT

Serious Fire in Business Section Was Narrowly Averted Yesterday Morning

What might have been a serious conflagration in the congested downtown business section was narrowly averted early yesterday morning. As it was, only slight damage was done.

At 3:15 a.m. an occupant of the living premises above Tom Ballinger's furniture store on Third Avenue near Fifth Street awoke and smelt smoke. Investigation showed that fire had broken out in the store below so an alarm was turned in to the fire department.

On arrival at the scene the fire brigade had to break in. The side of the wall was in flames which the firemen soon extinguished.

The cause of the fire is believed to have been from sparks from stoves in the second floor falling down the flue on to a picture which was used to cover up the chimney hole on the first floor. Louis Edgar turned in the alarm. Damage was done to the building and also to some of the stock in the store.

DROWNING OF INDIAN

Police Investigate Circumstances of Fatality Which Befel Wm. Nelson of Kitimaat

Provincial Constable Robert Gibson returned to the city yesterday from Goat Harbor near Butedale where he investigated the circumstances attending the death of William Nelson, 30 years old, native storekeeper of Kitimaat, who was drowned on April 2.

Nelson had been on a trip in his gasboat Frog to Butedale on business. On the way back to Kitimaat, he stopped for the night at Goat Harbor. The next morning he set out again and it is believed that his boat must have struck a rock. It is further assumed that Nelson must have been stunned in the impact for he was found drowned in the partly submerged gasboat which, pending arrival of the police, was taken to Goat Harbor. The body was removed from the boat by the police.

Investigation of the circumstances of the fatality showed that death had been entirely accidental so the body was allowed to be taken to Kitimaat for burial. Nelson is survived by a widow and four children.
