POLITICAL FIGHT ON

It seems there will be a big political contest this spring Peacock copper. in the English parliament. The suggestion of Premier Bennett of Canada that Britain should impose a tax on cher for the Lawn Hill school, left foodstuffs for the benefit of the Empire and of Canada for up coast after spending holidays in particular gave encouragement to the Conservatives of with her parents, Mr. and Mrs. John that country so that they are endeavoring to have the Mathers of Sandspit. Miss Mathers question decided by the people at an election.

In the meantime there is such a momentous question as the granting of a constitution to India being undertaken at 11:10 p.m. January 10. There by the MacDonald Government, giving the Conservatives plenty of opening for attack.

It seems as if the MacDonald Government will carry the only a few seconds. India measure through the House of Commons but there is doubt of its passing the House of Lords. Should their the last boat from Prince Rupert Lordships decide to refuse to make the India bill law, there is possibility of the government appealing to the people Parker. An election seems to be anticipated in Britain within the year and it will be an intensely interesting one. The fact that Canada has taken a hand in it makes it more than ever interesting to people of this country.

GLAD TO HAVE WORK

Prince Rupert is glad to have the overhaul of the big steamers done at the local dry dock and it is to be hoped bodying the wishes of the meeting. that the policy of giving work of this kind to their own Rev. E. S. Fleming and Harry Little dock will be continued by the Canadian National. It is were elected members of the board. hard to realize how any business concern could think of handing out work to outside yards when they have one of their own which seems to be managed efficiently and visited for a few weeks in Saskatwhich does excellent work. No private company would chewan. hand out work to competing yards when it had a yard of its own. Yet we are told the Canadian National Railways is not in politics.
