BE SURE TO REGISTER

Any person who is not on the list of provincial voters should take steps at once to see that the name is added. A person who voted in the last provincial election would be automatically a voter this time. Those who did not vote at the last election will not be on the list. In order to make sure, it is well to investigate. The list is at the court house and any person can register there any time during office

ELECTION THIS YEAR

The rumor comes from Victoria that an election will be held this year. If so everyone should be in a position to vote when the time comes. A recent arrival from Victoria states that the Tolmie Government has had to face adverse financial conditions this year and it has been found very difficult to balance the budget. Next year will be worse from a governmental viewpoint, so it is very likely that the prediction as to the election will prove true.

FISH ARRIVING

Yesterday was the biggest halibut day Prince Rupert has had this year. Unhappily the difference over the sharing of the catch has kept most of the Seattle fleet tied up with the result that little halibut has been coming to Prince Rupert in American bottoms. With the settlement of that difference the whole fleet will be out and once more this port will become busy.

While no fish have been sold to the former buyers at this port, Ketchikan boats have been selling freely to several of the old companies at that port and getting good prices. At the week-end the price was fourteen cents for first class fish.

Representatives of the old companies are not saying anything but they are remaining here and apparently plan to stay until the end of the season.

CONDITION OF HIGHWAY

Numerous complaints are being made on the bad con- ways presents a crestfallen appear- which accompanies the exterior of dition of the highway across Kaien Island. The section of lance. Whether surrounded by other the residence has been carried init within the city is well kept and cars run smoothly over houses large or small or whether side. The delightful arrangement of ceives countless letters every year it. Beyond the city limits the trouble begins and does not end until the other side of the island is reached.

As this is the only piece of provincial highway in this part of the district, complainants say they think it should be made passable for ordinary traffic.

BUILDING DOWN TWENTY-FIVE PER CENT

Advertising in this paper today indicates that building with which the details of chimney, material is down 25 per cent over what it was a year ago. roof, entrance and possible bays That should be an inducement to build this spring while and gables are worked out. material is low and labor plentiful! At any rate it is worth considering.

A 91,000,000 candle-power searchlight, which could project advertising matter-or other symbols - fifty miles, is being worked out by Alfred Gauthier, of New York.

A PROPERTY OF THE PROPERTY OF

Series of Building Plans Begins in This Issue | WE ARE OFFERING:

The building season is here once more and the Daily News has made arrangements to publish weekly a series of plans for houses, some of which will be found to be suitable to local conditions. Others will possibly give prospective builders ideas which may help them in drawing their own plans.

The plans are made in Toronto and brick is specified more often than would be desirable in Prince Rupert. This may always be replaced by stucco, which is particularly well adapted to the climate here.

The cost of erection as given by the architect seems quite high, equally as high as the cost would be in Prince Rupetr for similar buildings.

The idea in publishing these plans is to encourage Prince Rupert people to own their own homes instead of depending upon renting. This not only makes for stability but it also encourages well kept homes and is in line with the movement to beautify the city.

An Artistic English Bungalow
