NEWS OF THE MINES AROUND PRINCE RUPERT

Activity in Omineca Starting — Germanson Creek Company Formed — Annual Report of Premier, as Usual, Pessimistic

The Germanson Development Syndicate has been formed to take over and develop some twenty-six claims on Germanson Creek in the Omineca district. The syndicate is the promotion of W. B. Bowler, who has spent the past two years in the district, and W. F. Paquette, the capital to be raised chiefly in England. William Thomas Bowler of Bedford and E. C. Bowler and William Ed. Bowler of Slough, Bucks, England, have extensive holdings to be taken over by the syndicate which has been incorporated

FENDER AND BODY WORK

A SPECIALTY

for \$50,000. There are three groups. of claims. On the Motherlode group a tunnel has been driven for 100 feet on fourteen-foot ledge of quartz which is heavily impregnated with grey copper. On the Blackjack group a 400 foot tunnel was driven by former owners on a ten-foot ledge and the same was recently opened by a 100-foot open cut. This ledge carries about three feet of galena. On the P.M. group two open cuts have been made 400 feet long on a 12-foot ledge a bazaar in the afternoon under latest. The vein filling in the ledge is the auspices of the Ladies' Aid of quartz with chief values in grey Holy Angels' Anglican Church, copper. Some sensational assays concert and dance following in ing. Free delivery to any part of have been received from samples the evening. taken on all three groups, the highest values appearing as silve and gold while the copper content is returned as being worth \$46.

George Snell of Vanderhoof ha returned to his gold mineral claim in the Nation River country. The results so far are most promising and are creating considerable interest. There are many indications of a revival of development work in the Omineca mining area. Quite a number of parties plan on going

Premier Gold Mining Co. Ltd. re- the auspices of District C. This decrease in silver price present from all parts of the disrepresented a cut of approximately trict. Prize winners were Mrs. P. \$390,000 in net returns upon the Konders, Mrs. M. M. Connelly, Mrs. 1930 production of Premier mine. Edward Viney, Miss Irene Ross The financial statement reveals and J. D. Webster. that of the \$1,050,773.43 distributed to shareholders last year \$5,- While at work in his barber 831.54 was from earnings and the shop last Tuesday afternoon, T. P balance a "return of capital ac- Calhoun was stricken with para-C crued through the reserve accounts lysis. Although still partially parset up for ore depletion and depre- alyzed and unable to speak, he is ciation." Mining property of the now showing signs of improvecompany, after depletion and de- ment. preciation, is shown at \$2,226,722 as compared with \$3,058,628 in the previous year. Ore reserves were 49,831 tons less in Premier mine at the end of 1930 than at the end of 1929 and, although the report says efforts will be continued to prolong the life of the mine, no encourgement is held out in this direction, the ore shoot having been found to be bottomed slightly above the fifth level except at the eastern end where 12,000 to 20,000 tons were uncovered. Other features of the report were that Prosperity yielded net returns of \$201,802.83. At the date of the report, February 27, silver was at the low point of 26c. and Mr. Guess stated that operations at Prosperity might be suspended or the output withheld from sale until the price recovered. Porter-Idaho started shipments in June and yielded net returns of \$48,442.65 for deduction of taxes, depreciation, etc. As Silverado was abandoned by Premier during the year, speculative interest for the future appears to ! be centred upon the Lakeview property and the Toburn Gold Mines Ltd. in Ontario. Work on the Lakeview claims is in its initial stages. The Ontario project is referred to by Mr. Guess as "frankly speculative venture but, as such,
