### SPORTSMANSHIP

A good many Canadians will declare that the winning of the speed boat race by George Wood was a low down Yankee trick, but it is satisfactory to know that the American people do not countenance that kind of sportsmanship. It was smart work, but not racing. Kaye Don was not expecting a trick, but a fair race in which the fastest boat would be allowed to win.

There will be general condemnation of the fiasco in this country and the Old Country sportsman will shudder at having to meet such competition.

### DOMINION AND RELIEF

It is satisfactory to know that the Federal Government has at last realized the seriousness of the unemployment situation and has taken vigorous steps to meet it. By paying half the cost of public works and guaranteeing the bonds on the other half, the financing of public works should be comparatively easy. At the same time municipalities will have to be careful that they do not become so deeply involved in debt that they may find it difficult to extricate themselves in future. It is all very well to have the Dominion pay half the cost and possibly the province half of the remainder, but even then the city has to borrow its share, and the bill has to be paid eventually. The borrowing power is limited.

We are still hopeful that the Federal Government will see its way to undertakings on its own initiative some public works that will be of lasting benefit to the country and that will use material as well as directly provide labor.

### TEN CENTS A WEEK

The management of the Daily News has decided to meet the present local financial situation by giving patrons an opportunity to subscribe to the paper on very easy terms. Ten cents a week will be collected by the boys from those not paid in advance. The boys buy the papers from us and retail them to the customers. The few subscribers who are in arrears will start anew with the boys and settle the old accounts at the office.

The boys cannot give credit, as they have to pay for the papers as they go. It is expected that this will prove more satisfactory to readers of the paper and also to the management. We ask that the best possible treatment be extended the boys in their endeavor to carry on in an orderly manner. Customers who wish to do so may continue to pay in advance at the office.

The Daily News is attempting to give the best possible newspaper under the conditions obtaining here. We ask for the fullest possible co-operation so that the service may be improved. The better support we get, the better we can make the paper.

# WHO'S WHO

(By Gee)

## E. L. Gray

BORN in Ontario, educated in the schools of Saskatchewan and at the Ontario Agricultural College, now field crops commissioner in the Alberta Department of Agriculture, E. L. Gray gives to his work as chairman of the Alberta Committee of the World's Grain Exhibition and Conference a wealth of agricultural experience.

Mr. Gray's home is in Grey County, Ontario, where he was born in 1895. In 1902 he moved to Saskatchewan with his parents and received his early education in the public and high schools of that province.

In 1923 he graduated from the Ontario Agriculture College, after which he taught school in Saskatchewan for three years. He served overseas during the war with the C.E.F. and for a time acted as a county agricultural agent in Ontario. His agricultural experience was greatly increased during the period he occupied the position of farm manager and instructor in animal husbandry at the School of Agriculture, Claresholm, Alberta, and for nearly three years as district agriculturalist at Hanna, Alberta.

Farmers of the Bulkley Valley expect to harvest forty bushels of wheat and 110 bushels of oats to the acre this fall. While the yield will be high, the price will not be as high as usual. The third crop of alfalfa will be ready for cutting in a few days. It will be the first time that three crops have been cut in the north.

Many local people attended the Smithers Fair last Wednesday. A number stayed over for the Telkwa Barbecue.

The English motorcycle speed record was established during the week of June 22nd by P. Hunt, riding an all-British machine. His average speed for the entire 225 mile Mountain Course on the Isle of Man was 77.90 miles per hour... a record!

## The RECORD SPEAKS for ITSELF

A record in motorcycle racing or a record in cigarette popularity—each demonstrates a clean cut superiority over all others which is the result of quality.

Year after year Turret cigarettes continue to satisfy millions of Canadian smokers, and their record for public favour grows more impressive.

After all, nothing can replace good, honest tobacco; grown and ripened right out in the field under nature's own sunlight—nothing artificial about that—and the high quality is "inbred".
