It's got to be good to be ADVERTISED

READ THE GROCERY ADS TODAY

All the king's horses . . . and all the king's men can't make a success out of a bad product. No amount of advertising will create a market for it. The more it's advertised, the more its defects become known.

A Good Product Well Advertised

grows as swiftly and naturally as a healthy plant. People try it and like it. They tell others. They like it. Soon that product is found everywhere . . . and its name, spread abroad by advertising, is on every tongue.

When you see something widely and consistently advertised, you can be pretty sure it's well worth having. If it weren't . . . if it didn't represent an honest and worthy value . . . the maker couldn't afford to advertise it.

Look Over the Advertisements in this Paper

Some of these names you know. Others, perhaps, are newcomers, all are entitled to your trust . . . all are here because they have potential friends bringing some new comfort or convenience. But something real to contribute to your advantage . . . your service . . . your happiness.
