ENCOURAGING NEWS

Encouraging news was received yesterday in regard to ker. the proposed new sulphite mill. Frank L. Buckley will Prayer Partners' secretary, Mrs. probably be in the city soon to make arrangements in con- Hales (Smithers). nection with the water supply and the various matters in Living Message Editor, Mrs. J. G. connection with the site at Seal Cove, but local people Delegates to Dominion Woman's must not be disappointed if there are delays. The propo- Auxiliary-Mrs. J. B. Gibson, Mrs. sition is a big one and negotiations in connection with its R. L. McIntosh and Mrs. A. L. Holtvarious phases takes time. The main thing is that plans by. Alternates-Mrs. S. V. Cox, Mrs. are still making progress.

The visit of Mr. Buckley next week is understood to be in connection with the securing of a water supply from the Rev. J. B. Gibson, the dean, officcity for the mill and other matters in connection with the lating, and Rev. Canon W. F. Rushproposed site at Seal Cove.

FUR SEAL PEST

Yesterday we published an article dealing with the de- the Cathedral Hall by St. Andrew's predations of the fur seals on the halibut and salmon on woman's Auxiliary to the delegates. this coast. It seems that with the consent of our govern- Mrs. W. J. Greer, the president, was ments the seals are protected on the Pribiloff Islands and in charge. these seals pass down the coast in the fall and return north in the spring, taking large toll of the fish as they pass. There are many thousands of these animals and it is almost impossible to estimate the number of halibut and salmon they destroy. It is not only what they eat but what they kill that really counts.

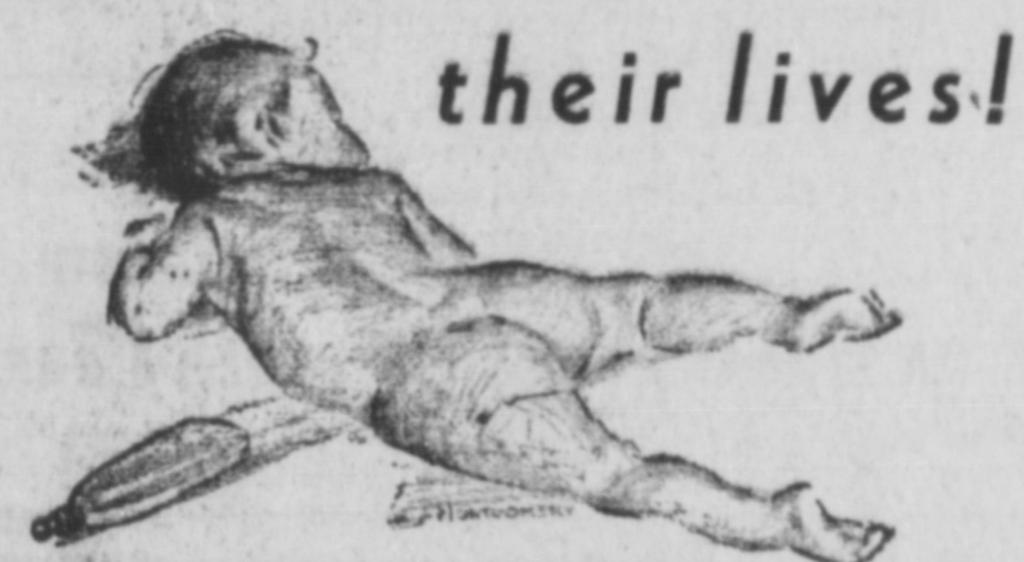

Every year the government spends considerable money killing the sea lions. This is good work but it is not enough. Editor, Daily News:-The fur seals are just as bad in the localities where they pass. They not only kill the fish but interfere with the 8900, spent for fire protection \$10.- Friday & Saturday fishermen in their arduous labors by actually taking the 735 and for administration of justification of justificat fish off the hooks, salmon in the inside waters of Hecate tice (police force principally) \$10,-Strait and halibut on the banks west of Queen Charlotte 668, in 1930, which is the most re-Islands.

The fishermen have to look on these depredations, help- 403 which is \$2.52 per capita. less to do anything to stop them because the seals are protected by international agreement to which the govern of 6400, spent in the same year for per 2-1b. tin ment of Canada is a party.

At various times we have advocated the abrogation of ministration of justice \$14,519. Both the treaty and the throwing open to everyone of the right services cost as \$32,100, which is almost exto catch the seals in open waters. Then Prince Rupert fish- actly twice as much as it cost Naermen could turn from halibut fishing at a time like this naimo. and take seals instead, thus making an honest living when our estimates for the police desuch is denied them from the fisheries.

In view of the prevailing situation it is very desirable for the fire department \$14,930, that the government of Canada take action to protect the fishermen on this coast by destroying the fur seals or allowing them to be destroyed when they prey upon the fish from which our fishermen make their living.

Some Babies owe it

THAT'S what grateful mothers often write us, praising Carnation Milk for baby feeding. Famous specialists recommend it because of its purity, uniformity and safety. Carnation is heat-treated forming finest, softest curds in the baby's stomach. And homogenization breaks up the coarse fat globules into easily assimilable ones. This makes Carnation super-smooth in cookery, too. Splendid when creaming coffee and for use with fruits and cereals. Economical because double-rich.

Brighter rooms can now be yours no matter how small your budget . . . for Congoleum introduces a new ideal of economy in guaranteed floor covering. No hard labor to keep them clean . . . a damp mop brings back their full color immediately. New 1932 patterns give you a wide choice of delightful designs.

CONGOLEUM RUGS

SPENDING TO SAVE .. THROUGH

Auculiant

Not many of us, these days, are troubled with so much money that we cannot spend it. But we are interested in spending the money we have, to get the most out of it.

One way—and not a new way, either—is to make a budget. Put down, week by week, the money that comes in. Put down beside it, week by week, the money that goes out. So much for food, so much for clothing, so much for rent. So much for giving, and for luxuries.

Where Advertising Helps

It won't always be easy, of course, to stay within the budget. That's where advertising helps you. Advertisements in this newspaper tell you how much rugs, butter, breakfast foods, dishes, homes, automobiles will cost, before you go shopping! They point out ways to save money. They show you how to cut a little here, a little there. And each day, they tell about new inventions, new products, new ways of doing things, that help make this life of ours very much worth living!
