YESTERDAY'S VOTE

The people of Prince Rupert spoke very decidedly land near Quick after the railway against any change in the policing system for the city and had been finished. He was a man this should settle the matter for years to come. The ques- of about sixty years of age and is tion that does not seem to be quite settled is as to how strong a force is required to handle the local situation.

Prince Rupert is a fairly law-abiding city and in case of Edward Norcross necessity there is always the Mounted Police and the Pro- Edward Norcross vincial headquarters staff. The question of cost is a serious one at a time like this when there is general retrenchment all along the line.

WILL BE DISAPPOINTED

There will be great disappointment in the Peace River country at the news that the committee of engineers has recommended against a western outlet for the present. Norcross, news editor of the Van-The people who have been going into the country have couver Star, which ceased publicabeen banking on better railway facilities. They had been gallery of the Legislature at its led to expect that something would be done soon and that present session as correspondent the farmers would then be in a position to get a proper for the Vancouver Sun. rate of payment for the crops they raise.

We suggest that, at the rate the country is filling up and with the added power they will bring to the agitation, it will not be long until the railways or the government will be forced to move in the matter.

ACTIVITY ON ISLANDS

It is good to hear that there will be activity on the Queen Charlotte Islands this year. Logging camps are already being opened at two centres and others will follow soon. Any activity in the northern and central sections of the province are heartily welcome for if one community is busy it helps the other and the greater the activity the better transportation and other facilities can be provided.

CASE OF

Interior Rancher Found Dead From Late Bernard McEvoy Was Promin-Rifle Bullet After Being Missing For Several Days

Despondency over financial mat ters being held responsible for the rash act the coroner at Smithers Dr. Vere Agnew, has found that he death of Carl Wakefield, pioneer rancher of the Quick district, whose body was found in the bush 3 miles from home on Wednesday of this week, was a case of suicide, an inquest being deemed unnecessary owing to the coviousness of the circumstances. Divisional headquarters here have been so informed by the Smithers' detach-

At 7:30 Saturday evening last Wakefield left his home on horseback and bidding his wife goodbye, said that he was going for a ride. Later that night he was seen riding loward Round Lake. Nothing having been seen of Wakefield subsequently the police at Smithers were advised that he was missing. Early the next morning, a police search was instituted by twenty-five men on horses. At 11 o'clock that morning the body was found in the bush. Alongside the body was a rifle containing and empty shell. A piece of stick bod evidently been used by deceased to 10c The late Mr. Wakefield was one

of the early pioneers of the central interior. Before construction Friday, Feb. 19, 1932 of the Grand Trunk Pacific Railway was completed, he was engaged in freighting from Hazelton into the Bulkley Valley taking up survived, besides his widow, by a grown-up family.

THE YEAR'S BUSINESS REVIEWED

". . . I think you will agree with me that for a year such as that through which we have just passed the showing is a remarkably fine one.

New assurances of over \$527,000,000, and a total in force exceeding \$3,000,000,000, are figures so great as to need no emphasis.

"The distribution of our new business is interesting. Canada contributed \$101,000,000, United States \$291,-000,000, Great Britain \$50,000,000 and the rest of the world \$85,000,000.

"Our mortality experience has been even more favourable than that of last year, the claims being but 54.3 per cent. of the expected, against 57.6 per cent. in 1930. "Since business was commenced in 1871 we have

paid out in benefits \$594,000,000. Last year alone our payments were \$93,000,000, an amount exceeding the total assurances written in 1922. We may well rejoice over the magnitude and importance of the social service which the Company is performing. "During the past year life assurance has been tested

as perhaps never before, and it has withstood the trial triumphantly. So far as I am aware not one life company on the continent has had to close its doors, a wonderful record. In Canada we can claim with pride that even since Confederation not one Dominion licensed company has ever failed.

"It will be noticed that in addition to the surplus of \$16,000,000 over all liabilities and capital stock, we have a contingency reserve of \$4,700,000 to provide for possible shrinkage in mortgages and other real estate

investments. Our reserves have been calculated on the same strong basis as last year. Although our investments payable in American currency greatly exceed our liabilities in that currency, we have treated both as on a partaking no credit for the premium on American funds. Our liabilities under contracts in other currencies also are included at a total greater than required at the prevailing rates of exchange.

"Our holdings of stocks have been valued on the basis laid down by the Dominion Department of Insurance, which is practically the same as that adopted for all companies by the National Convention of Insurance Commissioners of the United States.

"In new investments we have favoured high grade bonds, the yield on which is now very attractive. Our purchases of Canadian Government bonds during the year amounted to \$23,000,000. "The profits paid or allotted to policyholders amounted

to over \$26,000,000, or over 20 per cent. of the total annual premium income. "In the light of these figures, the report is indeed an

excellent one.

"And what of the future? No one believes that the depression will last for ever. It is impossible to say just when the turn will come, but with the vast natural resources of this continent, and the brains, energy, and actual wealth of its people, business recovery is inevitable. When prosperity does return no company will share in its benefits in greater measure than our own."

-From the President's Address at the Annual Meeting.
