How OVEN-BAKING makes beans lighter MORE APPETIZING

The dry, even heat of the Heinz ovens permits you to have beans with a flavour, a lightness, and with digestible qualities that all the boiling or steaming in the world could not equal.

Most tinned beans are steamed or boiled. Look on the label of the brand you use. Unless you find the word "Baked", those beans aren't baked.

In the Heinz ovens at Leamington, beans are so baked that all the flavour is retained and the delicious rich sauces that only Heinz can make permeate every bean, as butter permeates a wellbaked, mealy potato. Taste once more the

> delicious savour of beans as Grandma used to bake them in the old wood stove.

> You can get Heinz Oven-Baked Beans in four tempting styles. Two styles with Tomato sauce—with Pork and without. Then, there is Boston style with Pork and rich molasses sauce. Lastly, Red Kidney Beans in a savoury sauce—ready to serve. They are all Oven-Baked. Remember, only Baked Beans can be labelled "Baked."

READ THE GROCERY ADS TODAY

All the king's horses . . . and all the king's men can't make a success out of a bad product. No amount of advertising will create a market for it. The more it's advertised, the more its defects become known.

A Good Product Well Advertised

grows as swiftly and naturally as a healthy plant. People try it and like it. They tell others. They like it. Soon that product is found everywhere . . . and its name, spread abroad by advertising; is on every tongue.

When you see something widely and consistently advertised, you can be pretty sure it's well worth having. If it weren't . . . if it didn't represent an honest and worthy value . . . the maker couldn't afford to advertise it.

Look Over the Advertisements in this Paper

Some of these names you know. Others, perhaps, are newcomers, all are entitled to your trust . . . all are here because they have potential friends bringing some new comfort or convenience. But something real to contribute to your advantage . . . your service . . . your happiness.
