LONG CALL ON PHONE

Capt. W. P. Armour Talks to Calgary Radio Announcer and Puts in Request Number

One of the longest and, certainly, one of the most satisfactory long distance calls that has been put through from Prince Rupert since the Northwest Telephone Co. inaugurated its radiophone service out of here was that last evening when Capt. W. P. Armour, manager of the Pacific Salvage Co. here, conversed with the announcer of the popular CFCN radio broadcasting station of Calgary and put in a request to be played for his father inllaw, Mr. Daly of Munson, Alta.

Less than one minute after the call had been given central here Capt. Armour was conversing with the Calgary announcer and the voice came in with remarkable clarity. The call was handled through Campbell River and Revelstoke.

Alarm For Safety of Couple Missing in Plane Increases as Time Passes

TELEGRAPH CREEK, Feb. 20: -Anxiety in regard to the safety of Pilot William R. Graham and Mrs. Edna Christofferson of Portland increased last night after another day had passed without any word being received of the couple who are missing on a flight from Hazelton to Atlin, having been last sighted Monday afternoon, the day of the takeoff from Hazelton, 100 miles south of Atlin near Nahlin.

The area in which the couple must have come down in their Bellanca plane is in the grip of winter with deep and heavy snow on the ground. The country is also practically devoid of human life and chances of shelter are considered negligible.
