Relation of the Liver and Kidneys

Such that each suffers when other deranged—Both regulated by Dr. Chase's Kidney-Liver Pills

When the liver becomes sluggish or torpid in action, the kidneys have to help out with the work of filtration. When the liver fails the kidneys have all the work to do.

Hence the beginning of trouble is usually biliousness, indigestion and constipation and after a time the kidneys begin to be affected and there comes backache, urinary derangements and kidney disease.

The remarkable success of Dr. Chase's Kidney-Liver Pills is due to their unique combined action on the liver, kidneys and bowels. They get at the cause of trouble and remove it no matter how complicated it may be. Promptly and thoroughly they cleanse the bowels or intestines, arouse the liver action and thereby relieve the overworked kidneys.
