The bottom has been touched and the people have felt all the throes of enormous taxation and of national depression. Now Britain is a country of hopefulness.

Huge quantities of gold have poured into the country. £40,000,000. Not only was there imported from India something like \$250,000,000 in the yellow metal but the people at home have melted their jewellery and dug up their stored sovereigns.

The rise in the price of sterling has not been generally satisfactorily, and the agreements to 11 feet. Lenses of massive lead of plants, many of which had been acceptable. The people in that country did not want it to have been splendidly honored. The ore from one inch to seven feet in brought from Vancouver and Vicrise. They were enjoying the depression of the currency and thriving on it. It is said that the depression of the American dollar and the consequent rise in sterling caused as much disquiet in London as it did in Washington.

## SPENDING TO SAVE .. THROUGH

# Advertising

Not many of us, these days, are troubled with so much money that we cannot spend it. But we are interested in spending the money we have, to get the most out of it.

One way—and not a new way, either—is to make a budget. Put down, week by week, the money that comes in. Put down beside it, week by week, the money that goes out. So much for food, so much for clothing, so much for rent. So much for giving, and for luxuries.

# Where Advertising Helps

It won't always be easy, of course, to stay within the hudget. That's where advertising helps you. Advertisements in this newspaper tell you how much rugs, butter, breakfast foods, dishes, homes, automobiles will cost, before you go shopping! They point out ways to save money. They show you how to cut a little here, a little there. And each day, they tell about new inventions, new products, new ways of doing things, that help make this life of ours very much worth living!
