HELP THE FARMERS

While fish is the product that makes Prince Rupert fa- er runs a risk of losing the article mous and on which the prosperity of the city depends, he is purchasing as well as the grain is the product on which the living of most of the country depends.

Canadian people use huge quantities of coarse grain duction if he has already contracproducts such as rolled oats, and dozens of different var- ted to buy under this plan. ieties of wheat products such as whole wheat breakfast foods and biscuits and those in which bran predominates. The use of these foods account very largely for the splendid stamina of the Canadian people. Dairy products and the individual of his independence grain products contain the vitamins which keep the body healthy and make it possible to keep free of colds and ward off infections.

Given a happy frame of mind, a sound constitution, plenty of fresh air day and night and food of the right kind you have the basis for a happy and virile people.

We have always advocated the eating of fish for the double purpose of feeding the body with one of the best of foods and of helping the fishermen. Add to this plenty of grain foods with all the vitamins present and doctors will by the installment method. find it difficult to get rich. Starve out the doctors by using good food, fresh air, pure water and dairy products.

U.S. CONSTITUTION

It is rather difficult for Canadians to understand the United States constitution. Last week Congress defeated by a very decisive majority a measure which it had taken months for the Republican leaders to prepare. The presi- der the installment plan rather dent and his cabinet were depending upon the Sales Tax Bill to finance the country and it was defeated. There is now nothing to do but adopt some other means of raising necessities of life. money or do without the cash. The U.S. government does not resign when it is shown that its policy is out of line interesting and very entertaining with the ideas of the people's representatives.

Had either of the British, French or Canadian governments suffered a defeat such as the setback given the U. affirmative side had won the S. administration it would immediately have resigned and asked someone else to try their hand at governing the country.

A Severe Cold A Hacking Cough

Mrs. M. K. MacNid, Iona, N.S., writes:—"I took a severe cold and developed a hacking cough. I kept on neglecting it thinking it would leave me like some previous colds I had, but it got worse. I tried every cough medicine I could think of.

A friend dropped in to see me and advised me to take Dr. Wood's Norway Pine Syrup. I purchased a bottle and before I had finished half of it I was completely relieved."

DEBATE IS INTERESTING

Principle of Installment Buying is Not Favored at Terrace

TERRACE, March 29:- "Resolved that installment buying is detrimental to the best interests of the 10c Canadian people."

The above resolution was debated at Terrace on Thursday evening. last at the Oddfellows' Hall.

Rev. H. T. Allen and R. B. Wallace spoke in favor of the affirmative side while Jack Sparkes, John Smith and Dudley Little upheld the 25 negative position. The affirmative 15 debaters represented the Native 1.40 Sons of Canada. The negative sale. speakers were selected from the Kitsumgallum Literary and Debating Society.

The chief arguments of the affirmative side were:

Installment buying always carries with it the temptation to buy too much.

Installment buying is very exensive due to high interest charges on payments.

During periods of unemployment or depression the installment buymoney payments already made.
