Persistent Headaches

and Sleeplessness Tell of Thin Blood and Exhausted Nerves

You are easily tired. You do not enjoy your meals. You are nervous and irritable. The blood is thin, the nerves are starved hence the headaches and bodily pains. Be warned of an approaching breakdown.

No medical treatment can be of much real help to you which does not enrich the blood. Because it does positively make the blood rich and red, Dr. Chase's Nerve Food restores the vigor of the nervous system and removes the cause of these symptoms from which you are suffering.

Good, restful sleep, improved digestion and freedom from headaches will soon convince you that this treatment is restoring your nealth and happiness.

Colds are common because people are careless. Prompt use of Aspirin will always check a cold. Or relieve your cold at any stage. And Aspirin can't hurt you. Take two tablets at the first indication of a cold, and that's usually the end of it. If every symptom hasn't disappeared in a few hours, repeat. Aspirin does not depress the heart. Take enough to give complete relief. And if your throat is sore, dissolve three tablets in water and gargle away all soreness. In every package of Aspirin are proven directions for colds, headaches, sore throat, neuralgia, neuritis. Millions who used to suffer from these things have found winter comfort in Aspirin. At drug stores everywhere.
