SCIENCE FINDS NEW MERITS

Has "Bulk" and Vitamin B for Constipation, and Iron for Blood

In the past ten years millions have found Kellogg's ALL-BRAN the safe "cereal way" to overcome comaches, backaches, loss of appetite

Behind this success is the proved effectiveness of ALL-BRAN. Laboratory tests show ALL-BRAN brings two things needed to overcome common constipation: "Bulk" to exercise the intestines. Vitamin B to tone the intestinal tract. ALL-BRAN also contains twice as much bloodbuilding iron, by weight, as beef

The "bulk" in ALL-BRAN is much like the bulk in lettuce. Inside the body it forms a soft mass. Gently it clears the intestines of wastes. How much more pleasant it is to

use this delicious cereal than to abuse your system with pills and drugs—so often habit-forming. Just eat two tablespoonfuls daily with milk or cream-sufficient to overcome most types of constipation—in serious cases, with every meal. If you have intestinal trouble

not relieved this way, see your

Special cooking processes make ALL-BRAN finer, softer, more palatable. It is not habit-forming. Appetizing recipes on the red-andgreen package. At all grocers. Made by Kellogg in London, Ontario.

Agricultural Possibilities of Various Northern Districts Described In Article

Prince George has perhaps the largest and most accessible area of suitable land (free and purchase) in British Columbia either for group or individual settlement declares an article entitled "Back to the Land in B. C." by Louis Lebourdais in the nagazine section of a recent Vancouver Sunday Province. The central interior is extensively referred

The article continues in part as follows: Additional good land available for a considerable distance eastward from Prince George

to in the article.

. The Nechako Valley contains some of the finest grain and mixed farms in the interior and there is room for hundreds of others. South of Burns Lake is another section known as the Lakes District where there is ample opportunity for those who are landminded. . . The fertile valleys of the Bulkley and Skeena, being less extensive than those to the east and south, have no great vacant areas but, nevertheless, there is room on the land for several times the number already there. For the man who craves! real pioneering, far off the beaten track, there are few places left. The Cheslatta Lake section, just south of Ootsa, is as yet a safe sanctuary for the old time cattleman and others of his type who seek the solitude of the silent places. In this area there is accommodation without crowding for perhaps 300 fam-
