The RECORD SPEAKS for ITSELF

In opening the Canadian National Exhibition at Toronto on Friday, August 28, Earl Jellicoe said: "Over a period of 52 years, the population of Canada has increased by 6,000,000; the revenue of the Government from \$22,000,000 to \$460,000,000 and the value of her trade from \$169,000,000 to \$2,400,000,000. In the same time, her manufactures have increased ten-fold and her crop acreage three-fold. This remarkable record encourages a feeling of optimism for the future."

Earl Jellicoe also made the following reference: "Canada's record growth constitutes an achievement of world importance and stands as a challenge to future progress. This phenomenal growth is the direct result of that splendid courage and determination which the people of Canada showed so strikingly from 1914-1918".

The record for public favour which is held by Turret Cigarettes is the natural outcome of quality consistently maintained throughout the years. After all, nothing can replace good, honest tobacco; grown and ripened right out in the field under nature's own sunlight-nothing artificial about that—and the high quality is "inbred".
