Electric Light and Telephone Wires Suffered-Hotel Garage is Wecked By Wind

Telephone and electric light wires and windows were the principal sufferers in one of the season's heaviest southeast gales, accompanied by torrential rain, which swept over the city for several hours Saturday night and Sunday merning. Line crews of the Northern B. C. Power Co. and the city telephone department were busy since the big wind repairing numerous breaks in the lines.

The gale twisted the Prince Rupert Hotel garage at the corner of Sixth Street and Wayne Place rather badly. A plate glass window was blown in in Fraser & Payne's store at the corner of Third Avenue and Sixth Street. For a few hours yesterday, the telephone line between the city and Digby Island was out of order.

It was impossible to learn at the Digby Island meteorological station the exact velocity of the gale. The station is awaiting the arrival

of a new wind gauge. will probably be held on Tuesday Damage is reported to have been done to boats at the dry dock and fishermen's floats.
