COAL FOR ONTARIO

Ontario has no coal and in the past has secured most of her supply from United States sources. In view of the present condition under which Canadians are penalized when buying in the U.S. markets it is natural that attention should be turned to Canadian sources of supply.

Alberta has for several years been trying to break into the Ontario market but the long rail haul is too expensive for a rather low grade coal.

British Columbia has plenty of coal and could well supply the eastern market, the product being shipped by way of the Panama Canal. In the groundhog country there is said to be an unlimited supply of anthracite coal of the best quality which could be produced and delivered to Montreal by way of Prince Rupert or Stewart at a price that would command a market but a large amount of capital is necessary to open the mines and put in the necessary transportation facilities.

A scheme was evolved a few years ago to market the Groundhog coal through Prince Rupert but it failed to receive governmental support and as a result failed to promised providing the provincial government would cooperate but they did not do so and today the coal remains undeveloped and will remain so unless the government at ly ground. Some coarse gold has Wieterie whichever party happens to be in power at the been found on this claim and, judg- Big Nuggets From time, takes action to support such a plan.

The present seems to be the ideal time for the promo- two feet of material on bedrock tion of such an enterprise but unfortunately the person which it will pay to handle. Peterwho was pushing it on the former occasion is not with us son and Johansen are getting a Sixty Pound Pieces of Silver Found any more. Whether any other person could undertake it flume together and will make a test or not we do not know. All we know is that there is a demand in the east for anthracite and that there is plenty of good anthracite in the Groundhog country.

Famous Opera Star

Madame Amelita Galli-Curci, world famous opera star, was given a rickishaw ride by a native Kulu chief while in South Africa, where she is fulfilling a three-months concert tour.

W. J. DeB. Farris, K.C.

Expected to run for Vancouver in provincial electoin with possibility of again becoming Attorney-General.

NEWS OF THE MINES AROUND PRINCE RUPERT

Interest in Placer Mining in Prince George District -Skaret Creek Draws Many Men-Inquiry By Belgian Interests

During the past few weeks Skaret Creek, a small stream which empties into Tabor Lake in the Prince George district, has been receiving a good deal of attention from materialize. Plenty of financial backing was at that time prospectors and at times there are reported to have been as many as fifty men on it. Fred Peterson, who is in partnership with Carl Johansen, has a lease on the creek and

ing from such prospecting as has been done, it looks as if there are of the ground within the next few

Richard Corless, who returned to Prince George last week after an extended trip to California, says that he has brought back with him \$3000 which will be expended in developing six claims on Skaret Creek in which he is interested. He says that he will have a crew of from ten to fifteen men at work within the next few days.

Charles A. Pyne, chairman of the industries committee of the Prince George Board of Trade, is in communication with Belgian interests who profess an interest in undeveloped gold properties, either placer Corp. Barber Is ber of properties for their consideration. If they are sufficiently interested, these Belgian interests state that they will send out their engineers to report and, if the reports Former Night Chief of City Deare satisfactory, negotiations for purchase will follow.

Herbert Porter, who is interested in placer ground at the headwaters of McLeod River, returned to Prince George last week. Accompanied by Shorty Webber, he made the trip from Fort McLeod to Prince George in the record time of eleven hours.

CALGARY, June 6:-Gold panto Thomas Hornby, Prince George short of last year. resident, who visited here recently. A small party on a creek off the Fraser earned \$200 in a day, he said. While this was exceptional, men, many of them jobless for several years, were panning and finding gold. "They are at least making a living," he remarked.

Great Bear Lake

Some Are Still Larger

CALGARY, June 6:-Sixty-pound silver nuggets are being found in the Great Bear Lake mineral field in the Northwest Territories, according to word received here.

The reports do not surprise Russell Johnson, Calgary geologist, who has inspected the area. "Nuggets of silver larger than that will be found in the districts as shafts are driven deeper into the ground," he

He believes that in addition to radium-bearing pitch-blende and silver, gold will be found in large down the better the pay."
