

... in Soups and Creamed Sauces

TASTE the fresh sweet flavor of pure country cream! Blending so well in savory soups, giving rich velvety body to sauces there's nothing like St. Charles Evaporated Milk to make good meals better.

St. Charles Milk is evaporated to creamy richness. All herds are rigidly inspected—plants are spotless and shining. Sixty per cent. of the natural water is removed and nothing is added. No wonder St. Charles is the safest, finest flavored milk you can buy.

Our new cook book "The Good Provider" will give you cooking secrets any French Chef might envy. 80 pages-186 recipesfull color illustrations of tempting dishes. Just mail

DOES YOUR BUSINESS NEED A DOCTOR?

ruro, N.S., Ingersoll,

Ont., Norwich, Ont.

and Sumas, B.C.

Now, Mr. Businessman, have you ever tried to diagnose the reason for that sudden drop in profit over the figures of "last month?" If the temperature of your business alarms you there is no need for you to lose any sleepthe remedy is simple.

ADVERTISE

the in small to be a loss

"Ah!" your say, "But that's all very well. I'm only a small man and can't afford it." That's the reason the small man remains a small man. The big men in business today did not become big by hiding their light under a bushel, they advertised, and Advertised, and ADVERTISED. Advertising is as necessary to a "sick" business as the doctor's services are to a sick person. And it will find the money to pay its own bills, if done judiciously, from the increased volume of increased profits. Start with a small appropriation

genius invents an implement of held by the Prince George Board of light draft which will cut leaves off Trade. weeds and stir the soil to the shallowest possible depth.

Recent experiments seem to show the old idea of the need of a loose mulch on the surface of the soil to ground. Now experts find the mulch makes very little difference in the amount of moisture escaping from the soil. Practically all preventable loss of moisture ocurs through the from making any leaves and there will be little loss of moisture, they affirm. Cut off every leaf as it appears and the weed will soon be

Most of the implements used in Western Canada were originated in Friday last. It is expected that it er rainfall, and most of the farmers came from wetter countries, bringing ideas that it is necessary to stir, pulverize and air the soil to raise crops. For several years now authorities have been coming to the opinion this is unnecessary.

Sharp Shovels

If manufacturers could produce a harder shovel that would keep sharp and at the same time tough enough not to break on stones, cultivation could be - effective while shallower. Experts have observed the farmer who keeps his cultivator room of the Prince George Hotel. shovels very sharp needs not go very dep and saves on the draft of the

To the outside observer there would appear to be also some advantages in respect to reducing lia- 12 pupils already enrolled. bilities to soil-drifting in thus stiring the soil to the shallowest possible depth. If a suitable implement designed that will kill weeds and it will not "blow" it will work a revolution in Western Canadian agriculture, experts declare.
