GARBAGE DUMPING

City Council Has Weighty and Odoriferous Problem For Its Consideration

The weighty, if not odoriferous, question of the municipal refuse has been used for years, is about filled to capacity and it is becoming an expensive matter to dispose of garbage there. The neighborhood of Frederick Street beyond the Prince Rupert Boulevard and not far from the commencement of the Skeena River Highway is favored as a likely site for a new dump.

the deep abyss on Eighth Avenue ence Waldof has set out from Prince high grade, to market. beyond the Sea! Cove School or, for George to search for Emil Bronthat matter, the enormous chasm und, engineer connected with the gineer for the northeastern mineral on Third Avenue near McBride

Former Resident Mining Engineer Here to Take Charge of New Gold District

George A. Clothier, who for many years was resident mining engineer here for the provincial government and who more recently has been engineer for the district comprising Vancouver Island and the Lower Mainland, has now been named for District No. 3 which includes the Bridge River area, which has been rapidly coming into prominence lately as a gold field. Important developments are under way following mineral discoveries at Bridge River, these including the laying out of a new townsite and the erection of a hotel. Mr. Clothier will continue to make headquarters in Vancouver.

SPENDING TO SAVE .. THROUGH

Advertising

Not many of us, these days, are troubled with so much money that we cannot spend it. But we are interested in spending the money we have, to get the most out of it.

One way—and not a new way, either—is to make a budget. Put down, week by week, the money that comes in. Put down beside it, week by week, the money that goes out. So much for food, so much for clothing, so much for rent. So much for giving, and for luxuries.

Where Advertising Helps

It won't always be easy, of course, to stay within the budget. That's where advertising helps you. Advertisements in this newspaper tell you how much rugs, butter, breakfast foods, dishes, homes, automobiles will cost, before you go shopping! They point out ways to save money. They show you how to cut a little here, a little there. And each day, they tell about new inventions, new products, new ways of doing things, that help make this life of ours very much worth living!
