- one of the most economical and convenient foods the market affords . . .

- delicious with milk or cream for breakfast; extra welcome for lunch with fruits or honey; fine for the children's supper or for a wholesome bedtime snack for grown-ups . . .

- easy to digest. Always ready to serve. No trouble. No work . . .

- with a wonder flavor and crispness that no other corn flakes have ever been able to equal.

Kellogg's Corn Flakes have been imitated time and again — but no other corn flakes are ever "just like Kellogg's." That's why wise buyers specify Kellogg's - in the red-and-green package . . . with the inner-seal waxtite wrapper that keeps the flakes fresh and crisp even after opening. Still another exclusive Kellogg feature.

"How do they do it?"

Dealers

Among your friends there's sure to be at least one smart young married couple who are the envy and admiration of all who know them.

With an income that is frankly abbreviated, and with no benevolent Aunts in the offing, they still have a home that is correct and comfortable in all its appointments, a home that is admired and copied by their friends.

"Yes, Jane is a remarkable little manager," will-probably be the young husband's proud answer. And there is little doubt about it.

THEY DO IT THIS WAY

Take a look around that home and you will find no end of well known advertised products. For Jane is an efficient little manager. She can't afford to take chances that must only be debited to "Experience." When she buys for her home she must get tried and tested and trusted products which carry an honorable name to guarantee her satisfaction.

You will find that Jane is a consistent reader of the advertisements. Are you?
