WAR IN CHINA

All the forces of peace seem to have been impotent to prevent fighting in China. The country has been invaded by the Japanese and many of the Chinese killed. When the fighting will end no one can say but it now looks as if Japan intends to push her way forward until she has China by the throat and then dictate her own terms to which the League of Nations will have to agree.

Canada's sympathy seems to be largely with the Chinese because Canadians see a possible world danger in the aggressive attitude of the Japanese. On the other hand doubtless Japan has endured a great deal from irresponsible Chinese in Manchuria and the absence of a supreme authority in China has made it difficult to deal with the situation except by using force.

WHAT WILL BE THE EFFECT?

It seems to be the earnest hope that the present attack upon China will have the effect of consolidating the rival forces. That country has been suffering from civil strife for the past twenty years. No faction has been strong enough to control the whole. The condition of the country has been such that developments were impossible. The transportation system is antiquated and the movement of troops and war supplies is necessarily slow.

Possibly when the Chinese have learned the lesson that they are now being taught they will settle their own dif- you refer in your editorial of the ferences and form a real Chinese nation, strong and vir- 26th was made by me and was to fied by the court was \$5,062,239 and ile under competent leaders.

There have to be men who save money so that the spenders may have some place to borrow when the banks refuse them credit.

Messenger Boy Is Ambitious

Mesenger boys are sometimes said to be slow-poites, but here is R. McDonald of the Commercial Cable Company, England, being instructed in aviation just so that he may be the first and fastest in the world

CITY ASSESSMENT

Editor, Daily News:-

One of the statements to which

sessment.

Looking up the exact figures I find that the C. N. was assessed in 1927 at \$2,942,140 exclusive of the dry dock, which was tax free so not appealed. The court cut this figure to \$1,289,164 which is a reduction of

BRENTWOOD MODEL Jacobean Console with 9-tube Superheterodyne Chassis including Spray-Shield, Multi-Mu and Pentode Tubes. Twin Power Detection, Grand Opera Speaker. Complete with Rogers Guaranteed Tubes. \$163

NOW - Completely MADE IN CANADA

in the 1932

From "the Perfect Quality Receiver" in the Science Museum at South Kensington, London, comes the principle of Twin-Power Detection found in the 1932 Majestic Superheterodynes.

Due to this principle, nine tubes do the work of eleven in these models. Two of them are the new "247" Pentode Tubes, each of which has the power output of two ordinary "245" tubes. These new Majestica have all the power and efficiency of an 11-tube set with the low cost of a 9-tube set.

ADVERTISED

READ THE GROCERY ADS TODAY

All the king's horses . . . and all the king's men can't make a success out of a bad product. No amount of advertising will create a market for it. The more it's advertised, the more its defects become known.

A Good Product Well Advertised

grows as swiftly and naturally as a healthy plant. People try it and like it. They tell others. They like it. Soon that product is found everywhere . . . and its name, spread abroad by advertising, is on every tongue.

When you see something widely and consistently advertised, you can be pretty sure it's well worth having. If it weren't . . . if it didn't represent an honest and worthy value . . . the maker couldn't afford to advertise it.

Look Over the Advertisements in this Paper

Some of these names you know. Others, perhaps, are newcomers, all are entitled to your trust . . . all are here because they have potential friends bringing some new comfort or convenience. But something real to contribute to your advantage . . . your service . . . your happiness.
