MECHANIC CANNOT

Out-of-town mechanic who, three years ago, was suffering from severe headaches caused by very bad astigmatism, was fitted with glasses by Geo. F. Davey, Reg. Optometrist in charge of the Optical Dept. of Max Heilbroner, Jeweler. Nothing more was heard from the case until recently, his glasses got broken and came in for repairs, asking for a rush job as he could not work without them.

We like to know that our glasses are giving good service but isn't it reasonable that we suggest, people who depend so much on their glasses should have an extra pair. How about you?

Your Colds doubly dangerous

CCATTERED cases of "flu" are reported in many sections of the Dominion. Coming in the season when pneumonia takes its heaviest toll, this makes colds—so prevalent here now-doubly dangerous. For, so often, colds pull down body resistance and pave the way for "flu" and pneumonia.

DON'T WAIT FOR A COLD TO DEVELOP. At the first sign of stuffiness or irritation in the nose or throat, snuff some Vicks VapoRub up the nose. Repeat as needed during the day. This will often check a cold at the start.

IF A COLD HAS DEVELOPED, don't neglect it. At bed-time, rub the throat and chest vigorously with Vicks, spread on thick and cover with warm flannel. If the head is clogged with mucus or there is much coughing, melt a spoonful of Vicks in boiling water and inhale the steaming medicated vapors.

> (If possible, rest in bed until the cold is broken. This helps to maintain body resistance and to throw off the cold more quick-
