MINING IN INTERIOR

Daily News Representative Has Interesting Visit at McGill Office

Much Activity

Search For Gold General During Slump in Other Minerals

(By C. M. Irvine)

SMITHERS, June 24:—One of the most interesting places in Smithers is the office of L. S. McGill where the Daily News representative called this week to find out about mining activity in the district. Mr. McGill has made his front office into a Chamber of Mines for Omineca Mining Division and a large and representative mineral display from the entire district is the chief feature. Gold ores, silver ores, silver-lead ores, copper ores, zinc, molybdenite, realgar, manganese, hard and soft coal from many different mines are shown. There are also maps of the district and of Hudson Bay Mountain marked with the location of the mining properties, and mining reports, mining journals and other useful facilities to serve those interested in mining.

Mr. McGill told me about the mining going on in the district now. The silver-lead mines, which were formerly the most active, are now closed on account of the low prices for silver and lead. Their reopening will have to await the revival of the price of silver. Smithers people have been active in the campaign for this and are looking forward to (Continued on Page 5)

ROOSEVELT IS FAVORED

Al Smith Intimates He Might Favor Drafting Owen D. Young

CHICAGO, June 24:—Supporters of Governor Franklin D. Roosevelt of New York as Democratic presidential nominee declared last night that they were already assured of 400 votes of delegates at the national convention next week. They are confident that they will have sufficient strength to have Roosevelt named on the first ballot.

Should a deadlock arise, Former Governor Al Smith of New York, whose name will also go in nomination again, intimated that he would be willing to support a movement to draft Owen D. Young, who has repeatedly stated that he would not consent to being nominated.

Speaker John N. Garner still reigns second in popularity after Roosevelt. Only in event of a deadlock is it believed that Former Governor Al Smith of New York or Governor Ritchie of Maryland would have a chance to be chosen.

STAMPEDE IS UNWARRANTED

Loveseth Brothers Write From McConnell Creek Country to Daily News

Writing to the Daily News from McConnell Creek, John L. Loveseth and Alvin Loveseth deplore the fact that unauthorized reports regarding their operations in that field should have been published and state that there is no reason for anything in the nature of a stampede into that area. As far as they are concerned themselves, the Loveseths state that their only reason for being in the field is to try to find out whether properties in which they are interested are valuable or not.
