BISHOP GIVES

Tells of Interesting Incidents in His Recent Visit to Ontario Which He Rediscovered

In the course of an extremely interesting chatty account of his recent visit to Ontario, Bishop G. A. The Bishop also told of seeing the brief period. big hydrographic steamer on which Prince Rupert Dry Dock bid for construction. It was a splendid NEVADA FOR vessel. One of the incidents of the trip was having the lights go out when preaching at Orangeville and being being in complete darkness.

Among interesting places visited was Penetangueshene the site of the martyrdom of the Jesuit missionar ies Brebeouf and Lalement. Shrines now mark the spot where Brebeouf was killed by the Indians. MAN THOUGHT HIS RIGHT EYE WAS BLIND

Recently a man called on G. F. Davey, Registered Optometrist in charge of the Optical Dept. of Max Heilbroner, Jeweler, to have his eyes examined as he was having trouble reading. He said, "The right eye is no good, have not used it for years," yet with the proper glass fitted to that eye the vision was found to be about normal. A thorough examination practically FOUND AN EYE.

Many people are only using one eye and don't know it. How about you? If you find one eye not so good have it examined before it is too late.

There is a great difference in evaporated milks. Insist on Borden's St. Charles. It's the best by every test.

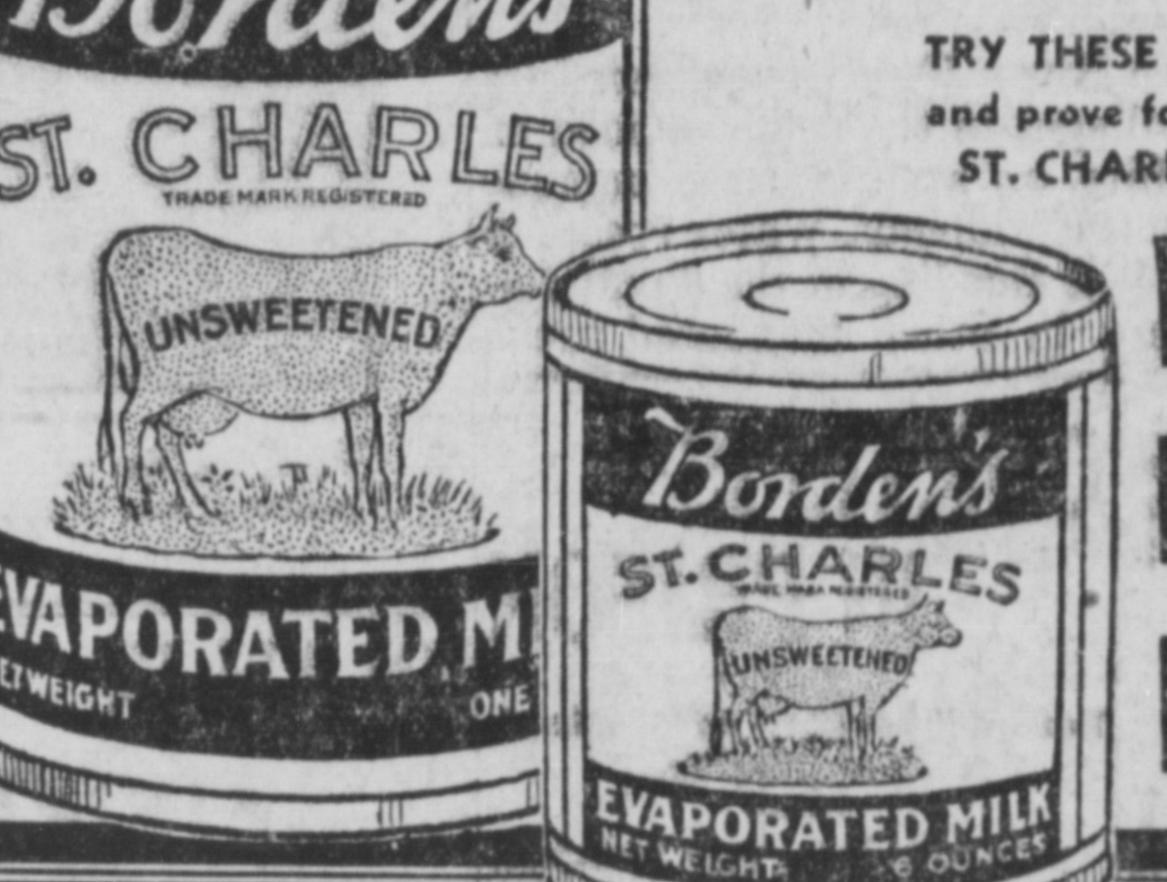

There are good reasons why Borden's St. Charles is the best of all evaporated milks. First, every herd that supplies Borden's is rigidly inspected. Every dairy is supervised-by Borden's own milk experts.

Second, the milk itself is tested. Colour, flavour, purity, cream content, are all carefully checked. Not one quart gets by unless it meets the exacting Borden standard.
